

Alaska Resources Library & Information Services (ARLIS)

Project Number: 02550

Restoration Category: Public Information, Science Management and Administration

Proposer: Restoration Office

Lead Trustee Agency: All Trustee Agencies

Alaska SeaLife Center: No

Duration: Ongoing

Cost FY 02: \$140,300

Cost FY 03: TBD

Geographic Area: All

Injured Resource/Service: All

ABSTRACT

Project 02550 represents the Trustee Council’s contribution to Alaska Resources Library and Information Services (ARLIS). ARLIS serves as a central access point for information generated through the Trustee Council restoration process and the transition phase of the GEM program. In addition, ARLIS acts as the public repository for reports and other materials generated from and related to the cleanup, damage assessment and restoration efforts following the *Exxon Valdez* oil spill (EVOS).

INTRODUCTION

The Trustee Council has contributed budgetary support for ARLIS since the library was established in 1997. ARLIS is providing services that were previously provided through the Oil Spill Public Information Center (OSPIC). With the exception of Fiscal Year 1994, this activity has historically been funded under the Public Information, Science Management and Administration budget (Project 1100).

In Fiscal Year 2002, the Trustee Council will continue to support one librarian at ARLIS. In addition, the Council continues to contribute funding to support the building lease, subscriptions, and other expenses. Council funding in Fiscal Year 2003 and beyond will be assessed on an annual basis.

NEED FOR THE PROJECT

Over the years, a vast array of material has been produced as a result of the restoration program. ARLIS provides guidance to the principal investigators regarding preparation of the reports, distributes the reports to individuals and libraries as appropriate, and acts as a repository of all reports and publications generated as a result of the restoration process. ARLIS also supplies the principal investigators with research materials and reference service pertinent to their restoration projects.

ARLIS provides universal access to Alaska natural and cultural resources information. The ARLIS collection contains 150,000 books, including agency publications, technical reports, and masters and doctoral theses, 700 journals, maps and atlases, legal reference materials, federal and state documents, public review documents, administrative records, videotapes, audiotapes, slides, photographs, electronic databases, environmental education kits, and a circulating collection of furs, skulls, and mounted birds. These materials are cataloged in a global bibliographic database making most circulating items accessible to users around the world. The library catalog is available for searching at the ARLIS website at www.arlis.org.

The ARLIS staff provides reference service, literature searches, and document delivery to Restoration Office staff working on Project 02535 and creating documents and databases for the GEM program.

Since it was established in October 1997, ARLIS annually receives 21,000 visitors, responds to 15,000 requests for information, performs over 11,000 interlibrary loans and circulates 14,000 books. Approximately 15% of the use of the library is directly related to the *Exxon Valdez* oil spill and the Trustee Council's restoration program. In addition, 15% of the materials borrowed by other libraries from ARLIS are EVOS materials.

A. Statement of the Problem

The Trustee Council's policies, as specified in the Restoration Plan and the GEM program, include a strong commitment to public information. ARLIS ensures that findings and results of restoration efforts are available to the public, scientists, and agency staff to help understand the status of injured resources and services and to plan for future restoration, research and monitoring.

B. Rationale/Link to Restoration

Project 02550 provides essential support to implement the restoration program as directed by the Trustee Council and guided by the *Restoration Plan* and during the transition to the GEM program.

C. Location

ARLIS is located at 3150 C Street, Anchorage, Alaska.

COMMUNITY INVOLVEMENT AND TRADITIONAL ECOLOGICAL KNOWLEDGE

Project 02550 supports various aspects of community involvement. This includes public information efforts to assist the general public and spill community residents to learn about the restoration program. ARLIS provides research support to those principal investigators conducting research in the areas of subsistence and traditional ecological knowledge.

PROJECT DESIGN

A. Objectives

The fundamental objective for ARLIS is to provide research materials to governmental agencies, the general public and spill community residents.

Specific objectives for FY 01 include:

1. Provide access to local, state, national, and international users of restoration program information.

B. Methods

ARLIS provides access to information through participation in library networks and a global bibliographic database. Through cooperative collection development efforts, appropriate books, technical reports, journals, gray literature, videotapes, maps, and other materials are acquired and cataloged. A web accessible library catalog, through a partnership with the University of Alaska Anchorage Consortium Library and the Anchorage Municipal Libraries, provides worldwide access to ARLIS materials through interlibrary loan services. Some full text publications are available through web links in the catalog record. Reference service is provided on-site and off-site via phone, mail, fax and email. The library provides in-house access to journal indexes to the general public and desktop access to agency users. Additional indexes are available through a partnership with the UAA Consortium Library.

C. Cooperating Agencies, Contracts and Other Agency Assistance

ARLIS is a partnership of eight natural and cultural resource libraries and information centers including:

U.S. Fish and Wildlife Service Library
Alaska State Department of Fish and Game Habitat Library
U.S. Bureau of Land Management Library

U.S. Minerals Management Service Library
U.S. National Park Service Library
U.S. Geological Survey Library
Arctic Environmental Information and Data Center Library
Exxon Valdez Oil Spill Public Information Center

The University of Alaska Anchorage is also a partner, although its library collection is not a part of ARLIS.

ARLIS shares a library catalog with the Anchorage Municipal Libraries and the University of Alaska Anchorage Consortium Library. The holdings of all partner libraries can be searched from the ARLIS web site by anyone with Internet access.

SCHEDULE

The Trustee Council operates on the Federal Fiscal Year (October 1 - September 30).

A. Measurable Project Tasks for FY 02 (October 1, 2001 - September 30, 2002)

On-going tasks throughout the fiscal year:

1. Review and approve format of final and annual reports, maintain a list of completed reports, and distribute reports to appropriate libraries. Catalog reports in a global bibliographic database for access throughout the world.
2. Maintain for public review the public record copy of the Trustee Council official record.
3. Maintain for public access a file of peer reviewed journal articles and conference papers resulting from Trustee Council funded research.
4. Provide reference service for oil spill related topics and other information needs to the Trustee Council, Restoration Office staff, science review staff, principal investigators, media, students and faculty, spill area residents, and the general public.
5. Acquire and catalog publications generated by the Trustee Council and other oil spill and restoration related materials deemed appropriate for the collection and necessary to the restoration program.

B. Milestones and Endpoints

1. Provide monthly reports to the Restoration Office on the status of the report format review and distribution process.
2. Provide quarterly reports and an annual summary of library usage statistics and staff projects.

C. Completion Date

Council funding in Fiscal Year 2003 and beyond will be assessed each year.

PUBLICATIONS AND REPORTS

Not applicable to this project.

NORMAL AGENCY MANAGEMENT

Funding in Project 02550 is for the sole purpose of supporting restoration program activities and may not be used for other purposes.

COORDINATION AND INTEGRATION OF RESTORATION EFFORT

Unless otherwise specified by the Restoration Office, each project funded by the Trustee Council is required to submit an annual report and a final report. As the public repository, all reports are cataloged and housed at ARLIS.

EXPLANATION OF CHANGES IN CONTINUING PROJECTS

In October 1997, the Oil Spill Public Information Center (OSPIC) was consolidated with seven other state and federal agency libraries to create ARLIS. Planning for the consolidation was done by library staff, with the guidance of a Management Advisory Group consisting of participating agency heads, through the U.S. Department of Interior, under the auspices of the Reinventing Government program. Although ARLIS was established as a cost saving measure in response to federal and state budget cuts, the resulting library provides a vastly more comprehensive collection of Alaska resource information in a single location, served by highly qualified staff specializing in resource related information.

PROPOSED PRINCIPAL INVESTIGATOR

Carrie Holba, Librarian
Alaska Resources Library and Information Services (ARLIS)
3150 C Street, Suite 100
Anchorage, AK 99503
(907) 272-7547, 271-4742 fax
carrie@arlis.org

PRINCIPAL INVESTIGATOR

Carrie Holba holds a masters degree in Library and Information Science. In February 1991, she joined the staff of the Oil Spill Public Information Center, serving as public services librarian and then as director since 1992. Since OSPIC was consolidated with ARLIS in October 1997, Ms. Holba has served as reference service coordinator and a member of the ARLIS library management team, and continues to specialize in EVOS

related reference service.

FY 02 EXXON VALDEZ TRUSTEE COUNCIL PROJECT BUDGET

October 1, 2001 - September 30, 2002

Budget Category:	Authorized FY 2001	Proposed FY 2002					
Personnel	\$75.6	\$81.2					
Travel		\$0.0					
Contractual		\$0.0					
Commodities		\$0.0					
Equipment		\$0.0	LONG RANGE FUNDING REQUIREMENTS				
Subtotal	\$75.6	\$81.2	Estimated				
General Administration	\$11.3	\$12.2	FY 2003				
Project Total	\$86.9	\$93.4	TBD				
Full-time Equivalentents (FTE)	1.0	1.0					
Dollar amounts are shown in thousands of dollars.							
Other Resources							
<p>Comments: This budget is for the Trustee Council contribution to funding for the Alaska Resources Library and Information Services (ARLIS). With the exception of Fiscal Year 1994, this activity has historically been funded under the Public Information, Science Management and Administration budget (Project /100). Funding as a separate project began in Fiscal Year 2001, as Project 01550.</p>
