1	EXXON VALDEZ OIL SPILL TRUSTEE COUNCIL
2	February 21, 2013
3	9:30 a.m.
4	4230 University Drive
5	Anchorage, Alaska
6	TRUSTEE COUNCIL MEMBERS PRESENT:
7	U.S. FOREST SERVICE: Ms. Terri Marceron
8	AK DEPARTMENT OF FISH & GAME: Mr. Tom Brookover
9	AK DEPARTMENT OF LAW: Ms. Jennifer Schorr
10	AK DEPART OF ENVIRON CONSERVATION: Mr. Larry Hartig
11	U.S. DEPARTMENT OF THE INTERIOR: Mr. Pat Pourchot
12	U.S. DEPARTMENT OF COMMERCE, NOAA: Mr. Peter Hagen
13	Proceedings electronically recorded, then transcribed
14	by:
15	Computer Matrix Court Reporters, LLC 135 Christensen

16 Dr., Suite 2, Anchorage, AK 99501 - 243-0668

- 1 ALSO PRESENT:
- 2 Elise Hsieh, EVOSTC Executive Director
- 3 Linda Kilbourne, EVOSTC
- 4 Carrie Holba, EVOS/ARLIS
- 5 Cherri Womac, EVOSTC
- 6 Eric Rosswell,
- 7 Mitch Ellis, U.S.Fish and Wildlife Service
- 8 Carole Jorgensen, U.S. Forest Service
- 9 Joe Darnell, U.S. Dept of Interior, Solicitor's Office
- 10 Phil Shepard, Great Land Trust
- 11 William Anderson, Jr., Koniag, Inc.
- 12 Charlie Powers, Koniag, Inc.
- 13 Tom Panamaroff, Koniag, Inc.
- 14 John Bitney, City of Cordova

- 1 ATTENDING BY TELECONFERENCE
- 2 Catherine Boerner, EVOSTC Science Coordinator
- 3 Rachel Lord, Cook Inlet Keeper and Alaska Clean Harbors
- 4 Kristin Carpenter, Copper River Watershed
- 5 Ivy Patton, Native Village of Eyak
- 6 Dorothy Cuin, City of Port Lions
- 7 Dawn Collinsworth, U.S.Dept of Agriculture, Gen Counsel
- 8 Jim Kallander, Mayor City of Cordova
- 9 Cathy Sherman, City of Cordova
- 10 Laurel Jennings, National Oceanic & Atmospheric Admin
- 11 Tom Barry, National Oceanic & Atmospheric Admin
- 12 Gina Belt, U.S. Department of Justic
- 13 Erika Zimmerman, Department of Justice
- 14 Dede Bohn, U.S. Geological Survey

1	TABLE OF CONTENTS

11	Cordova Center	137
12	Adjournment	159

- 1 PROCEEDINGS
- 2 (Anchorage, Alaska 2/21/2013)
- 3 (On record)
- 4 CHAIRMAN POURCHOT: Well, why don't we
- 5 get started. This is a meeting of the Exxon Valdez Oil
- 6 Spill Trustee Council. And I'm Pat Pourchot with --
- 7 representing the Secretary of Interior. I'm replacing
- 8 Kim Elton who retired a couple of months ago and so
- 9 I'll be taking his place on the -- on the Council.
- 10 Maybe we can just go around the room
- 11 and introduce ourselves for those on teleconference.
- MR. HARTIG: Yeah, Larry Hartig,
- 13 Commissioner, Alaska Department of Environmental
- 14 Conservation.
- 15 MS. MARCERON: Terri Marceron
- 16 representing USDA Secretary Tom Vilsack. And I'm the
- 17 Forest Supervisor on the Chugach National Forest.
- 18 MR. HAGEN: I'm Pete Hagen, I'm -- for
- 19 purposes of this meeting I'm the alternate for Jim
- 20 Balsiger who's the Administrator for the National
- 21 Marine Fishery Service and is serving as NOAA's
- 22 Administrator Representative to the Trustee Council.
- MS. SCHORR: I'm Jenn Schorr, I'm an
- 24 Assistant Attorney General with the Department of Law
- 25 and I am the alternate for Mike Geraghty the Attorney

- 1 General.
- 2 CHAIRMAN POURCHOT: And on
- 3 teleconference, Tom.
- 4 MR. BROOKOVER: Yes, I'm Tom Brookover,
- 5 I'm the alternate for Commissioner Campbell with
- 6 Department of Fish and Game. I'm the Deputy Director
- 7 with Sportfish Division.
- 8 CHAIRMAN POURCHOT: Great. So I think
- 9 we have a full complement, a quorum to conduct
- 10 business. And did anybody want to have any opening
- 11 remarks before we dive into the agenda?
- 12 (No comments)
- 13 CHAIRMAN POURCHOT: Well, if not I
- 14 think the agenda at least that I'm working with is
- 15 dated 2/20/13. We've had several in the last few days.
- 16 Does anybody not have the 2/20 agenda?
- MS. MARCERON: I have the 2/19 agenda.
- 18 CHAIRMAN POURCHOT: I think there were
- 19 typos corrected on that. Here's one.
- MS. MARCERON: Thank you.
- 21 CHAIRMAN POURCHOT: Okay. And, Tom,
- 22 you have the 2/20 agenda?
- MR. BROOKOVER: I do. Thanks, Pat.
- 24 CHAIRMAN POURCHOT: So why don't we
- 25 just start with -- hopefully people have looked through

- 1 the agenda items. Is there -- are there any
- 2 corrections or additions to the agenda?
- 3 MR. HARTIG: Move to approve the agenda
- 4 as proposed.
- 5 CHAIRMAN POURCHOT: Is there a second.
- MS. MARCERON: I second.
- 7 CHAIRMAN POURCHOT: Is there any
- 8 objection to the approval of the agenda?
- 9 (No comments)
- 10 CHAIRMAN POURCHOT: If not, the
- 11 agenda's approved. We had attached in the packets
- 12 meeting minutes, called notes here, I guess. Has
- 13 anybody -- everybody had a chance to look through the
- 14 minutes of the last meeting, are there any additions or
- 15 corrections to the minutes?
- MR. HARTIG: I'll move to approve the
- 17 minutes.
- 18 CHAIRMAN POURCHOT: Is there a second
- 19 on the approval?
- MS. MARCERON: I'll second.
- 21 CHAIRMAN POURCHOT: It's been moved and
- 22 seconded. Is there any objection to the approval of
- 23 the minutes?
- (No comments)
- 25 CHAIRMAN POURCHOT: If not, the minutes

- 1 stand approved.
- 2 Moves us to public comment. Are there
- 3 members of the public that would like to briefly
- 4 comment at this time on any and all agenda items, I
- 5 guess?
- 6 (No comments)
- 7 CHAIRMAN POURCHOT: On the
- 8 teleconference, any public wanting to comment on
- 9 today's agenda?
- 10 MS. LORD: This is Rachel Lord with
- 11 Cook Inlet Keeper and Alaska Clean Harbors in Homer.
- 12 And I would just say that I'm here on the call
- 13 primarily for agenda item 6, for the NOAA project
- 14 reviews. And if the Council has any questions I'm
- 15 happy to answer any or provide any feedback.
- 16 CHAIRMAN POURCHOT: Thank you very
- 17 much.
- MS. CARPENTER: This is Kristin
- 19 Carpenter from the Copper River Watershed project in
- 20 Cordova and I could just echo Rachel's comments. I'm
- 21 here for the request for funding that we have under
- 22 item 6 from the NOAA Funding Program.
- 23 CHAIRMAN POURCHOT: Thank you very much
- 24 for being here. Any others on line or in the room?
- 25 MS. PATTON: This is Ivy Patton from

- 1 the Native Village of Eyak in Cordova, Alaska. And I
- 2 am also here for agenda item 6.
- 3 CHAIRMAN POURCHOT: Very good. Thank
- 4 you. Any others on line?
- 5 MS. CUIN: Yes, my name is Dorothy Cuin
- 6 and I'm here from the City Council for the City of Port
- 7 Lions, also agenda item 6.
- 8 CHAIRMAN POURCHOT: Very good. Any
- 9 others on line.
- 10 MS. COLLINSWORTH: This is Dawn
- 11 Collinsworth with USDA, General Counsel in Juneau. I'm
- 12 just listening in.
- 13 CHAIRMAN POURCHOT: Very good. Others
- 14 on line.
- MR. KALLANDER: This is Jim Kallander,
- 16 Mayor of Cordova and with Cathy Sherman. And we're on
- 17 the agenda so I think we should wait until our agenda
- 18 item is up.
- 19 CHAIRMAN POURCHOT: Very good. That
- 20 would be appropriate. But thank you for.....
- 21 MS. JENNINGS: Hi. Also on the line is
- 22 Laurel Jennings and Tom Barry from the NOAA Restoration
- 23 Center. Eric Rosswell I believe is present in your
- 24 room today, also from NOAA.
- 25 CHAIRMAN POURCHOT: Very good. Others

- 1 on line that just want to identify themselves?
- 2 MS. ZIMMERMAN: This is Erika Zimmerman
- 3 at the Department of Justice on the line.
- 4 MS. BELT: This is Gina Belt from the
- 5 Department of Justice also on line.
- 6 MS. BOHN: Dede Bohn from USGS.
- 7 MS. BOERNER: Catherine Boerner, EVOS
- 8 Science Coordinator.
- 9 CHAIRMAN POURCHOT: Well, thank you
- 10 all. Hearing no further public comment or
- 11 identification let's move to the Executive Director's
- 12 report. Elise.
- MS. HSIEH: Thank you, Pat. Good
- 14 morning. The first item on my report this morning, I
- 15 don't have anything general -- generalized information,
- 16 is the Revised Reporting Policy. The current draft is
- 17 dated February 20th. This policy has been extensively
- 18 reformatted, moving away from an older narrative
- 19 template and adopting citations allowing for reference,
- 20 reduced forms and more complete project numbering
- 21 conventions. In regard to substantive change the
- 22 proposed revisions clarify the requirements for the
- 23 long-term programs reporting.
- Now we do expect continuing changes to
- 25 these policies as well as others in our program as our

- 1 long-term and restoration programs develop. It's
- 2 largely a matter of housekeeping.....
- 3 CHAIRMAN POURCHOT: And are you asking
- 4 for....
- 5 MS. HSIEH: I am requesting approval of
- 6 the Draft Reporting Policy dated February 20th, 2013.
- 7 There is a draft motion sheet with all motions written
- 8 in the positive that you can use to assist you to
- 9 a....
- 10 CHAIRMAN POURCHOT: Okay. Any comments
- 11 or questions of Council -- by Council members on the
- 12 potential motion to approve?
- 13 (No comments)
- 14 CHAIRMAN POURCHOT: Tom, on line?
- MR. BROOKOVER: No, Mr. Chair, nothing
- 16 from me. Thanks.
- 17 CHAIRMAN POURCHOT: What's the pleasure
- 18 of the Council?
- MS. MARCERON: I move we approve the
- 20 Revised Reporting Policies dated February 20th, 2013.
- MR. HARTIG: I'll second.
- 22 CHAIRMAN POURCHOT: It's been moved and
- 23 seconded to approve the Reporting Policies dated
- 24 February 20th. Any discussion?
- 25 (No comments)

- 1 CHAIRMAN POURCHOT: Is there any
- 2 objection to the motion?
- 3 (No comments)
- 4 CHAIRMAN POURCHOT: Without objection
- 5 then the Reporting Policies are approved.
- 6 MS. HSIEH: Since Tom's on the phone
- 7 can you specifically ask him if there's an objection
- 8 just to make.....
- 9 CHAIRMAN POURCHOT: Okay.
- MS. HSIEH:sure we get his
- 11 objection or affirmation.
- 12 CHAIRMAN POURCHOT: Tom, let me back up
- 13 a little bit. Are you -- do you have objections to the
- 14 motion?
- MR. BROOKOVER: No, no objection.
- 16 CHAIRMAN POURCHOT: I apologize. We'll
- 17 try to -- we'll try to check with you to make sure you
- 18 have an opportunity to say yea or nay.
- MR. BROOKOVER: Sure. And, you know,
- 20 I'm -- I'll speak up if I do.
- 21 CHAIRMAN POURCHOT: Okay. Very good.
- 22 Anything else?
- 23 (No comments)
- 24 CHAIRMAN POURCHOT: Okay.
- MS. HSIEH: The next item is the EVOS

- 1 Document Digitizing Proposal. As noted in earlier
- 2 meetings the EVOS office has been exploring the
- 3 feasibility of digitizing select EVOS files for ease of
- 4 retrieval, to facilitate web access where appropriate,
- 5 save future storage and office space expense and ensure
- 6 long-term preservation of information. The Alaska
- 7 Resources Library and Information Services, ARLIS,
- 8 which serves as an EVOS repository for EVOS related
- 9 materials has considerable experience conducting
- 10 digitizing projects for its founding agencies and other
- 11 state and federal organizations.
- 12 To address EVOS records ARLIS
- 13 recommends initially digitizing the EVOS collections
- 14 which are public, complete and previously organized.
- 15 Thus they recommend a phase one project to digitize the
- 16 administrative records of the restoration and planning
- 17 workgroup and the restoration plan final environmental
- 18 impact statement. The final deliverable for phase one
- 19 would be a searchable index collection, a full-text
- 20 document accessible at the EVOS website completed in
- 21 late 2013 or early FY 2014.
- The ARLIS proposal for this phase one
- 23 work has a budget of \$13,200 which doesn't include the
- 24 9 percent GA. We anticipate the project would begin
- 25 after July 1st of the state fiscal year and be

- 1 completed by January 13th, 2014.
- 2 Looking ahead and pending Council
- 3 approval of a future proposal, phase two would begin in
- 4 2014 with ARLIS digitizing the EVOS official record.
- 5 The final deliverable for phase two would be a
- 6 searchable index fully -- full-text official record
- 7 accessible at the EVOS website.
- 8 Ongoing maintenance of the official
- 9 record would be handled in a separate agreement.
- 10 I recommend funding this proposal. And
- 11 we have Carrie Holba here from ARLIS as part of our
- 12 staff to answer any questions.
- 13 CHAIRMAN POURCHOT: Are there any
- 14 questions or comments by Council members?
- MS. MARCERON: I'll just clarify.
- 16 CHAIRMAN POURCHOT: Terri.
- MS. MARCERON: So you're just looking
- 18 today for the phase one and you.....
- MS. HSIEH: Correct.
- 20 MS. MARCERON:clarified what the
- 21 next step would be, but you're not seeking anything at
- 22 this point in time?
- MS. HSIEH: Correct. Just wanted to
- 24 give you an idea.
- MS. MARCERON: Okay.

- 1 CHAIRMAN POURCHOT: Tom, any questions
- 2 or comments?
- 3 MR. BROOKOVER: I did have a question
- 4 for Elise. Elise, you broke up just a hair and I
- 5 didn't catch the budget for phase one, could you repeat
- 6 that, please?
- 7 MS. HSIEH: The phase one budget is
- 8 \$13,200. And that amount sounds -- if it sounds low to
- 9 you it is because we have Carrie working in our office
- 10 as well and we've already paid for her time so we've
- 11 leveraged some of that as well. The full funding
- 12 approval would be \$14,388 and that includes the 9
- 13 percent GA which is standard on all of our projects.
- 14 And you'll see that in your draft motion, that figure.
- MR. BROOKOVER: Okay. And that's for
- 16 phase one, correct?
- MS. HSIEH: That's correct.
- MR. BROOKOVER: And do we have an
- 19 estimate for the -- for the complete project?
- MS. HSIEH: No. For phase two, no, no,
- 21 we don't. And, in fact.....
- MR. BROOKOVER: Okay.
- MS. HSIEH:that would -- that's
- 24 going to take some time because it would be all of our
- 25 scientific projects, it would be a much more

- 1 complicated phase.
- 2 MR. BROOKOVER: Okay. Thank you.
- 3 MS. SCHORR: So.....
- 4 CHAIRMAN POURCHOT: Lawyer.
- 5 MS. SCHORR: Oh, I'm sorry. Is there
- 6 any rough timeline for when phase two might be started?
- 7 MS. HSIEH: We're looking ahead around
- 8 FY 2014 to have a proposal in. Also just as an aside
- 9 ARLIS is getting -- it's becoming known that they're
- 10 quite good at this digitizing so the agencies are
- 11 lining up. So we're actually getting in a queue by
- 12 approving funding. So I wouldn't be surprised if there
- 13 is some flex time in this -- by approving funding we
- 14 get in line so I'm appreciative of the opportunity and
- 15 appreciate Carrie's work on that. So.....
- 16 CHAIRMAN POURCHOT: Other questions or
- 17 comments by Council members?
- 18 (No comments)
- 19 CHAIRMAN POURCHOT: Is there a motion
- 20 to approve the funding?
- 21 MR. HARTIG: Okay. Well, I'll move we
- 22 approve funding for fiscal year 20 -- or let's see,
- 23 yeah, we approve funding of 14,388 which includes 9
- 24 percent GA for fiscal year 2013 to the Alaska Resources
- 25 Library and Information Service for phase one of the

- 1 EVOSTC Document Digitizing Project. The budget does
- 2 not include indirect costs as the ARLIS management team
- 3 would receive funds through ADF&G.
- 4 CHAIRMAN POURCHOT: Is there a second
- 5 to the motion?
- MS. MARCERON: I second.
- 7 CHAIRMAN POURCHOT: It's been moved and
- 8 seconded to approve funding for the Digitizing Project.
- 9 Is there further discussion by the Council?
- 10 (No comments)
- 11 CHAIRMAN POURCHOT: Tom, any further
- 12 comments?
- 13 MR. BROOKOVER: Just a note, Mr. Chair,
- 14 I think this is a good project. I have -- you know,
- 15 I'm confident and staff's doing the work, I used to
- 16 supervise the ADF&G library and -- at ARLIS and I have
- 17 a feel for the capabilities and think that the job will
- 18 be done well. So I think it's a good project.
- 19 CHAIRMAN POURCHOT: Thanks so much for
- 20 those comments. Any further comments or questions?
- 21 (No comments)
- 22 CHAIRMAN POURCHOT: Is there any
- 23 objection to the motion to approve funding in the -- to
- 24 the amount of \$14,388 for the Digitizing Project?
- 25 (No comments)

- 1 CHAIRMAN POURCHOT: Tom, any objection?
- 2 MR. BROOKOVER: No.
- 3 CHAIRMAN POURCHOT: Without objection
- 4 then the Digitizing Project funding has been approved.
- Next item on the agenda is the Habitat
- 6 Program. Elise, did you want to.....
- 7 MS. HSIEH: Uh-huh. I'll.....
- 8 CHAIRMAN POURCHOT:do some
- 9 introductory remarks on that?
- 10 MS. HSIEH: Sure. We have Bill
- 11 Shephard here today from Great Land Trust as well as
- 12 David Wigglesworth if they wanted to come up to the
- 13 table to further speak on it after -- I'll do a brief
- 14 introduction.
- What we have before you today is a
- 16 proposal aimed at increasing the capacity of our
- 17 existing Habitat Program through a collaboration with
- 18 the Great Land Trust. As noted in prior Council
- 19 meetings and public advisory committee meetings we've
- 20 been looking at opportunities to increase the capacity
- 21 of the Council's Habitat Program. As part of this
- 22 effort we consulted with prior Trustees and staff who
- 23 spearheaded numerous Council habitat acquisitions over
- 24 the last two decades. They noted in the past the
- 25 Council had contracted with third parties specializing

- 1 in land protection to facilitate implementation of the
- 2 Council's Parcel Acquisition Program. Their
- 3 recommendations as well as those from Trustees familiar
- 4 with habitat efforts by third parties led us to consult
- 5 with Great Land Trust. Great Land Trust has built an
- 6 outstanding reputation as the creative land trust that
- 7 collaborates with state and federal agencies, native
- 8 and local communities, business and the public to
- 9 facilitate protection of lands in Alaska. While known
- 10 largely for their partnerships and work in Southcentral
- 11 Alaska Great Land Trust has extended their service area
- 12 to the Exxon Valdez oil spill area.
- 13 As a result of our conversations with
- 14 Great Land Trust they produced a proposal and a Kodiak
- 15 lands prioritization. The proposal appends a detailed
- 16 prioritization showing the criteria and data used to
- 17 identify land prioritized for conservation value. This
- 18 prioritization builds on recent work commissioned by
- 19 the U.S. Fish and Wildlife Service and is also tailored
- 20 to address the Council's particular habitat priority
- 21 such as species and services entered by this bill. The
- 22 proposal engages Great Land Trust for an initial two
- 23 years of work with willing landowners in the Kodiak,
- 24 Afognak and surrounding islands and other affected
- 25 areas.

- 1 As with all multi-year Council
- 2 proposals you're reviewing funding for FY 2013 today.
- 3 FY 2014 funding would be reviewed by the Council next
- 4 fall. Due to interest expressed by individual Trustees
- 5 during our briefing process Great Land Trust plans to
- 6 include a spill area lands prioritization in its
- 7 proposals for FY 2014 funding.
- I recommend approval of this proposal.
- 9 CHAIRMAN POURCHOT: Before getting into
- 10 questions and answers or questions and comments on this
- 11 action item, I just wanted to state for the record that
- 12 up to about four years ago I did serve on the Board of
- 13 Directors for Great Land Trust and actually was part of
- 14 the hiring program for hiring Mr. Shephard here. I
- 15 consulted our Solicitor's Office at the Department and
- 16 got a review and a written statement saying that
- 17 because of the long period of time since serving on the
- 18 Board and no intervening direct action or activities
- 19 with Great Land Trust that there shouldn't -- they did
- 20 not think there was a conflict of interest for me. The
- 21 normal cooling off -- so called cooling off period for
- 22 officials relating to their prior engagements is
- 23 typically one year. In the case of political
- 24 appointees to the Department of Interior we have a two
- 25 year so called cooling off period. The four years

- 1 significantly exceeds that so unless there's specific
- 2 objections or further questions by Council members or
- 3 perhaps attorneys on line or in the audience I would --
- 4 having made that declaration I would be participating
- 5 in the further decision making on this.
- 6 Is there any questions or comments on
- 7 that?
- 8 (No comments)
- 9 CHAIRMAN POURCHOT: If not, maybe did
- 10 you all want to.....
- MS. HSIEH: You can do it either way.
- 12 The Trustees have had briefing on this proposals and
- 13 we've had email and -- but if there are any additional
- 14 questions or comments about the proposal they're here
- 15 to answer those questions. It might be the most time
- 16 efficient way to handle it unless there's substantial
- 17 issues.
- 18 CHAIRMAN POURCHOT: So why don't we
- 19 just ask the Council members if you have specific
- 20 comments or questions of either the Great Land Trust or
- 21 Fish and Wildlife representatives here and certainly
- 22 Tom on line.
- MR. HARTIG: Yeah, Mr. Chairman, I
- 24 would just -- a couple comments. I think this is a
- 25 great idea and I have great confidence in Great Land

- 1 Trust being able to help push this forward and I think
- 2 one of the big benefits is that they may be able to
- 3 actually leverage, you know, some of our projects with
- 4 other people's projects or money and we can achieve
- 5 more. And, you know, in my discussions with Bill I'm
- 6 sure that, you know, this will be of great benefit to
- 7 the trust and our objectives so I plan to support it.
- 8 MR. HAGEN: Maybe a question for Elise.
- 9 I was wondering did this proposal get submitted to the
- 10 PAC for review, the public advisory committee, did they
- 11 have any comments on it?
- 12 MS. HSIEH: It was. We don't have a
- 13 PAC meeting before every Trustee Council meeting, we
- 14 have an annual PAC meeting. So that falls before our
- 15 meeting in the fall which is our evidence
- 16 (indiscernible) cycle so I have forwarded all of these
- 17 materials to the PAC for their individual comment which
- 18 we do receive by email and we haven't -- I think we
- 19 actually received one positive from the regional. We
- 20 might -- I don't think we received any individual
- 21 comment except that they were happy to receive
- 22 materials and thanked us for keeping them informed. So
- 23 they were receiving them.
- 24 MR. HAGEN: Yeah, I seem to recall in
- 25 previous meetings some of the PAC members from Kodiak

- 1 were very much interested in habitat.....
- MS. HSIEH: We did have.....
- 3 MR. HAGEN:issues.
- 4 MS. HSIEH:we did bring it up at
- 5 the PAC meeting last time regarding our outreach to
- 6 Great Land Trust and looking at options and they were
- 7 very positive about it at that time.
- 8 MR. HAGEN: Thank you.
- 9 CHAIRMAN POURCHOT: Other comments or
- 10 questions?
- 11 (No comments)
- 12 CHAIRMAN POURCHOT: Tom, any comments
- 13 or questions on the proposal?
- 14 MR. BROOKOVER: No, I reviewed the
- 15 proposal and thought it -- you know, a general comment
- 16 was that, you know, I thought it provided a good
- 17 approach to looking at and prioritizing habitat
- 18 research projects. In -- you know, in the recent past
- 19 we -- the Council has received proposals for habitat
- 20 acquisitions and easements and so forth and in my
- 21 experience we have been lacking an approach like the
- 22 one Great Land has presented although I think DNR has
- 23 utilized a similar approach, maybe not as systematic or
- 24 not as explicit as the one Great Land Trust proposed so
- 25 I thought pretty favorably of it when I reviewed it

- 1 myself.
- 2 CHAIRMAN POURCHOT: Thank you. I would
- 3 just say even though I already announced some prejudice
- 4 perhaps on this that I do know the work of Great Land
- 5 Trust and I too have great confidence in their work and
- 6 their ability to do this. And wearing my Interior hat
- 7 maybe I'd ask Mr. Wigglesworth to comment because I
- 8 know that Fish and Wildlife has put in grant money into
- 9 projects that have been managed or run by Great Land
- 10 Trust and maybe get your opinion on kind of their work
- 11 and their ability to do things based on your agency
- 12 grant experience.
- MR. WIGGLESWORTH: Yeah. Thank you,
- 14 Pat. Just briefly, again my name's David Wigglesworth,
- 15 I'm the Habitat Restoration and the Conservation
- 16 Partnerships Coordinator for Fish and Wildlife Service
- 17 within the Fisheries and Ecological Services Division.

18

- 19 And through some of our Habitat
- 20 Programs, particularly the Coastal Program, we have
- 21 worked with Great Land Trust in Southcentral Alaska in
- 22 our service area with great success. Our work -- our
- 23 funding doesn't support the actual acquisition of
- 24 property, but it supports activities leading to that,
- 25 landowner outreach, appraisal, prioritizations like the

- 1 one that you've seen already in Kodiak. And that was
- 2 one of our interests with Kodiak and working with other
- 3 Fish and Wildlife Service interests there, the Refuge
- 4 as well as the local communities, to really prioritize
- 5 habitats for conservation so that we're focused on the
- 6 highest and best parcels to meet the needs of people
- 7 supporting the acquisitions ultimately or obviously the
- 8 fish and wildlife values. And Great Land Trust has
- 9 been excellent, they're uniquely qualified, they have
- 10 an excellent staff and as you know many of the board
- 11 members are quite familiar with EVOS as well as the
- 12 situation in Alaska. And so I think it's a great
- 13 opportunity to pursue some important objectives the
- 14 Council has.
- Thank you.
- 16 CHAIRMAN POURCHOT: Any other
- 17 questions? Yes, Jen.
- 18 MS. SCHORR: I'm just wondering, the
- 19 budget, the category for legal contracted services, is
- 20 that -- well, I guess two questions. First is that
- 21 outside counsel and second is that to review the
- 22 transaction documents and conveyance documents?
- 23 MR. SHEPHARD: Our thoughts there were
- 24 just we wanted to have a line item for -- I'm Bill
- 25 Shephard with Great Land Trust. And in response to

- 1 your question it would be if we needed counsel for
- 2 review of, you know, a purchase agreement or a
- 3 conservation easement we wanted to have a line item
- 4 there. It could be that we actually won't and we will
- 5 be able to use your services or others. So it's not --
- 6 yeah. So.....
- 7 MS. SCHORR: Okay. Thanks.
- 8 MR. HAGEN: Yeah, just another question
- 9 on the budget as well. So this is set up as a cost
- 10 reimbursable, I guess, the proposal and year one fiscal
- 11 year -- I guess we're following the new Trustee Council
- 12 fiscal year will end January 31st, 2014. I guess do
- 13 you anticipate -- maybe a question for Elise, would
- 14 this money if it's not all spent then be carried over
- 15 automatically or would we be asked to next year approve
- 16 an additional budget or.....
- 17 MS. HSIEH: Even if there were left
- 18 over funds.....
- MR. HAGEN: Uh-huh.
- MS. HSIEH:that we could
- 21 carryover, there will likely if the program's active
- 22 and successful there will likely be additional funds
- 23 for the second year anyway. So you'll be seeing
- 24 another budget and, in fact, this budget for the second
- 25 year, you know, we've sort of -- it's projected out

- 1 here, but it's quite elastic depending on the size.....
- 2 MR. HAGEN: Okay.
- 3 MS. HSIEH:and number of parcels
- 4 which really come into play. So.....
- 5 MR. HAGEN: Okay. Thanks.
- 6 MR. SHEPHARD: Yeah, I mean, you can
- 7 see that a large piece of the budget is the appraisals
- 8 or due diligence and it'll just depend on landowners
- 9 and landowner interest and how many of those we
- 10 actually do.
- MR. HAGEN: Okay.
- 12 CHAIRMAN POURCHOT: Other comments or
- 13 questions?
- 14 (No comments)
- 15 CHAIRMAN POURCHOT: Tom, any comments
- 16 or questions?
- 17 MR. BROOKOVER: No, nothing further
- 18 from me.
- 19 CHAIRMAN POURCHOT: If there's nothing
- 20 further from the Council is there a motion?
- 21 MR. HARTIG: Yeah, I'll move we approve
- 22 funding for fiscal year 2013 of \$284,866 which includes
- 23 9 percent GA for the Great Land Trust proposal to work
- 24 with willing landowners in the Kodiak, Afognak and
- 25 surrounding islands and other EVOS affected areas to

- 1 facilitate the Council's Habitat Program.
- 2 CHAIRMAN POURCHOT: Is there a second
- 3 to the motion?

4

- 5 MS. SCHORR: I'll second.
- 6 CHAIRMAN POURCHOT: Thank you. It's
- 7 been moved and seconded to approve funding to -- for
- 8 the Great Land Trust proposal for \$284,866 for fiscal
- 9 year 2013. Is there any objection to the motion?
- MS. MARCERON: I don't have an
- 11 objection, I would just add.....
- 12 CHAIRMAN POURCHOT: Yes.
- MS. MARCERON:the clarification
- 14 that Pete made that again fiscal year '13 in my mind
- 15 still goes through September so maybe just putting the
- 16 dates of -- through January 31st, 2014, just to clarify
- 17 that for the record I think would be helpful.
- 18 CHAIRMAN POURCHOT: Through.....
- MS. MARCERON: I don't know whether
- 20 Elise would recommend March, but I would at least do
- 21 the ending date as it ties in with the EVOS.
- MS. HSIEH: And also any time you say
- 23 in a motion fiscal year it will through our general
- 24 operating procedures it will automatically tie into our
- 25 new fiscal year cycle unless otherwise authorized by

- 1 the Trustee Council.
- 2 MR. HARTIG: And that was my
- 3 understanding making the motion.
- 4 MS. HSIEH: Yes. Thank you.
- 5 CHAIRMAN POURCHOT: So rather than
- 6 amending the motion why don't we just clarify for the
- 7 record that that does relate -- the fiscal year 2013
- 8 relates to the EVOS fiscal year.
- 9 MS. MARCERON: That's all I'm asking.
- 10 CHAIRMAN POURCHOT: Yeah.
- MS. MARCERON: Yeah.
- 12 CHAIRMAN POURCHOT: With that
- 13 clarification are there objections to the motion?
- (No comments)
- 15 CHAIRMAN POURCHOT: Tom, any objection
- 16 to the motion?
- MR. BROOKOVER: No objection from me.
- 18 CHAIRMAN POURCHOT: Without objection
- 19 then the motion passes unanimously.
- 20 Taking us to -- thank you very much, to
- 21 the Torsen Small Parcel. Elise did you want to
- 22 introduce that or do you want to have.....
- 23 MS. HSIEH: Samantha Carroll from DNR
- 24 and I believe Ivars Stolcers.
- MR. STOLCERS: Ivars.

- 1 MS. HSIEH: Ivars, excuse me, and
- 2 Specialized Service are here to present the Torsen.
- 3 CHAIRMAN POURCHOT: You want to just
- 4 introduce yourselves again just to make sure that the
- 5 mic picked it up.
- 6 MR. STOLCERS: I'm Ivars Stolcers, a
- 7 Realty Specialist with the U.S. Fish and Wildlife
- 8 Service.
- 9 MS. CARROLL: And I'm Samantha Carroll
- 10 with the Department of Natural Resources.
- 11 MR. STOLCERS: And I'm just going to
- 12 give a brief background of the project.
- 13 The Ernest Torsen parcel is located on
- 14 Shasta Creek which is a tributary of the Karluk River.
- 15 It's 87.99 acres and the parcel was previously put
- 16 forth to the Council in July, 2011. It was deferred at
- 17 that time because the parcel was surrounded by BLM
- 18 lands that we were working on getting transferred to
- 19 the Fish and Wildlife Service. And now we've gotten
- 20 approval from BLM to go ahead and get those lands
- 21 transferred to the Refuge. And so that makes the
- 22 parcel part of the Refuge. And we're asking for
- 23 preliminary approval to go forward with the appraisal
- 24 as well as some due diligence work and we're also
- 25 asking for additional authorization of the purchase of

- 1 the parcel with a range value between 60 and \$100,000.
- 2 And I think that everybody has the benefits report.
- 3 MS. HSIEH: I'm going to add a note
- 4 regarding interagency and third party coordination.
- 5 The Service and Great Land Trust have already been
- 6 working on habitat protection prioritizations on Kodiak
- 7 Island and due to these recent efforts, Samantha
- 8 Carroll, Department of Natural Resources, Jen Schorr of
- 9 the Department of Law, Great Land Trust and the Service
- 10 met to discuss their mutual habitat protection efforts.
- 11 The groups agree that many of their efforts were
- 12 aligned, that continued coordination is mutually
- 13 beneficial and could build on our individual agency and
- 14 group efforts. In addition all parties agree that
- 15 Torsen's a valuable parcel pursuant to its habitat
- 16 value.
- 17 I just wanted to let the Trustees know
- 18 that the groups are talking and there's been a fair
- 19 amount of mutual interest and goals.
- 20 CHAIRMAN POURCHOT: I just had a
- 21 follow-up question on the BLM approval of -- it's a
- 22 boundary adjustment to make it -- so the parcel's
- 23 internal to the Refuge boundaries?
- MR. STOLCERS: Correct. Yes, the
- 25 forest sections of BLM lands were directly adjacent to

- 1 the Refuge boundary and so once those become Refuge
- 2 Ernest Torsen's parcels will be embedded within the BLM
- 3 lands so they will -- the one -- the BLM part will be
- 4 considered boundary adjustment.
- 5 CHAIRMAN POURCHOT: So knowing how some
- 6 of these things take much longer and I assume that
- 7 there's a Federal Register notice involved or some sort
- 8 of official action because what's the time frame for
- 9 doing that?
- 10 MR. STOLCERS: That's essentially done,
- 11 we just have to do the Federal Register notice. We put
- 12 the request to BLM and they wrote a memo in the state's
- 13 records approving the adjustment.
- 14 CHAIRMAN POURCHOT: So it's in the
- 15 queue somewhere for.....
- MR. STOLCERS: It's in the queue, yeah.
- 17 I don't -- I anticipate it being a couple months at the
- 18 most to get that analyzed.
- 19 CHAIRMAN POURCHOT: And, Sam, did you
- 20 have further comments?
- 21 MS. CARROLL: Just if there's any
- 22 questions.
- 23 MR. STOLCERS: I did have just one
- 24 other comment. I just wanted to thank a couple people
- 25 who helped us get this BLM transfer finally done, we've

- 1 been trying to get it done for several years. And Mark
- 2 Boemer at BLM and Tim Richardson as well were
- 3 especially helpful to keep moving this project forward.
- 4 CHAIRMAN POURCHOT: Questions, comments
- 5 from the Council?
- 6 MR. HAGEN: Well, just a -- because you
- 7 two are both here as the agency folks involved with
- 8 habitat acquisition and I presume you're very
- 9 comfortable with the Great Land Trust involvement that
- 10 was just approved by the Council. I quess is there
- 11 going to be any change into the -- I guess there's a
- 12 habitat acquisition process that was adopted, a policy,
- 13 maybe Elise is.....
- MS. HSIEH: Yeah, maybe I can speak to
- 15 that. And this relates to the Great Land Trust and our
- 16 current Habitat Program. The -- our draft resolution
- 17 is for you to look at and sign today actually has been
- 18 reviewed by Samantha and Jen who spearhead our Habitat
- 19 Program. And it incorporates several provisions just
- 20 reemphasizing some of our basic guidelines for Council
- 21 habitat acquisitions, willing sellers, the different
- 22 types of interests that are pursued and also the
- 23 coordination spells it out a little more between Great
- 24 Land Trust working with DNR and Department of Law in
- 25 the identification, appraisal, commitments, approvals

- 1 of any parcel before they move ahead. So the
- 2 resolution actually has -- spells out in more
- 3 particular some of the coordination amongst the two
- 4 agencies.....
- 5 MR. HAGEN: Yeah.
- 6 MS. HSIEH:and Great Land Trust
- 7 based upon how the existing Habitat Program currently
- 8 operates.
- 9 MR. HAGEN: Thank you.
- MS. HSIEH: Thank you.
- MS. CARROLL: And just to follow-up on
- 12 your question about Great Land Trust, yes, I work with
- 13 them on a variety of projects and have a lot of trust
- 14 in the way they execute their projects.
- 15 CHAIRMAN POURCHOT: Other questions or
- 16 comments by Council members?
- 17 (No comments)
- 18 CHAIRMAN POURCHOT: Tom, any comments
- 19 or questions?
- MR. BROOKOVER: Well, this is Tom.
- 21 Yeah, and I just had one question. I like this idea of
- 22 a conditional authorization for purchase just from an
- 23 efficiency standpoint. I -- but I guess just a
- 24 question, I mean, this is a new approach that we --
- 25 that we're taking for this parcel, is it not? I guess

- 1 maybe that's.....
- 2 MS. HSIEH: Yes.
- 3 MR. BROOKOVER:a question for
- 4 Samantha or Elise.
- 5 MS. HSIEH: Yes. Tom, yes, it is and I
- 6 echo -- I'm very interested in how this will play out
- 7 because I -- the Trustee Council has had -- you know,
- 8 it's difficult with the sporadic meetings one or two
- 9 times a year and with habitat parcels and willing
- 10 sellers and projects stalling out and the willing
- 11 sellers who we want to encourage becoming discouraged
- 12 because of the timeline. So I'm excited about this
- 13 opportunity to present a conditional approval to the
- 14 Trustee Council and it might be a new way of
- 15 functioning in the future as well.
- MS. CARROLL: And maybe to add a little
- 17 bit, this is Samantha. The efficiency of this type of
- 18 approach is great. We have a problem with reports
- 19 expiring and we need valid reports at the time of
- 20 conveyance. So this will help us facilitate that as
- 21 well.
- 22 MR. BROOKOVER: Yeah. I think -- I
- 23 agree. I -- and I'm just thinking in the past, I don't
- 24 think we, you know, had many parcels or any actually
- 25 that I'm aware of where we've gone ahead and approved

- 1 the -- you know, the due diligence and then come to a
- 2 point where we actually didn't approve the
- 3 authorization for purchase. We may have, but in this
- 4 case I don't -- I don't think it.....
- 5 MS. HSIEH: In most cases.....
- 6 MR. BROOKOVER:it's not a concern
- 7 from my standpoint anyway and I like the approach.
- 8 CHAIRMAN POURCHOT: Thank you, Tom.
- 9 Other comments or questions?
- 10 (No comments)
- 11 CHAIRMAN POURCHOT: What's the desire
- 12 of the Council?
- MS. MARCERON: I move we approve
- 14 funding of up to \$107,600 to U.S. Fish and Wildlife
- 15 Service for due diligence costs associated with the
- 16 Torsen parcel, KAP 3000, and to fund the purchase of
- 17 this parcel conditioned upon if the fair market value
- 18 established by an appraisal falls within the range of
- 19 60 to 100,000, that would be condition number 1. Due
- 20 diligence reports are acceptable to DN -- Alaska DNR
- 21 and Alaska DOL, that would be condition number 2. And
- 22 lastly provided that the EVOSTC Executive Director,
- 23 Alaska DNR, Alaska DOL, find it -- find that it is in
- 24 the best interests of the Council to move forward with
- 25 acquisition of the parcel, that would be the last

- 1 condition. Authorization for funding the purchase of
- 2 this parcel shall terminate if a purchase agreement is
- 3 not executed by February 21st, 2015.
- 4 MR. HARTIG: Yeah, I'll second.
- 5 CHAIRMAN POURCHOT: It's been moved and
- 6 seconded. I have one clarifying, what is ADOL?
- 7 MS. HSIEH: Alaska Department of Law.
- 8 CHAIRMAN POURCHOT: It's been moved and
- 9 seconded to -- for approval of funding for the Torsen
- 10 small parcel. Any further discussion or questions on
- 11 the motion?
- 12 (No comments)
- 13 CHAIRMAN POURCHOT: Tom, further
- 14 questions?
- MR. BROOKOVER: No.
- 16 CHAIRMAN POURCHOT: Is there objection
- 17 to the motion?
- 18 (No comments)
- 19 CHAIRMAN POURCHOT: Tom, any objection
- 20 to the motion?
- 21 MR. BROOKOVER: No objection.
- 22 CHAIRMAN POURCHOT: Without objection
- 23 then the motion to approve the small parcel funding is
- 24 approved unanimously.
- 25 That brings us to agenda item 6 which I

- 1 know there's people on line for, the NOAA Clean Harbor
- 2 Projects. And.....
- MS. HSIEH: Would you like me to give a
- 4 brief introduction?
- 5 CHAIRMAN POURCHOT: Please. We have
- 6 Catherine Boerner on the phone, our Science
- 7 Coordinator.
- 8 Catherine, would you like me to give a
- 9 brief introduction or.....
- 10 MS. BOERNER: I was planning on it, but
- 11 you're certainly welcome if you.....
- MS. HSIEH: Oh, no. Go ahead.
- MS. BOERNER: You have the floor.
- 14 CHAIRMAN POURCHOT: If you could
- 15 introduce yourself -- please introduce yourself for the
- 16 record.
- MS. BOERNER: Of course. This is
- 18 Catherine Boerner and I'm the Trustee Council Office's
- 19 Science Coordinator.
- 20 CHAIRMAN POURCHOT: Thank you. Go
- 21 ahead.
- MS. BOERNER: Okay. I'm going to give
- 23 you just a super brief background for those of you who
- 24 are not familiar with these projects. In 2011 the
- 25 Trustee Council voted to fund phase one of the NOAA

- 1 Restoration Office's Harbor Protection Program. The
- 2 goal of the program was to help spill affected
- 3 communities prevent toxic releases originating from
- 4 harbors and marinas which will provide a healthier
- 5 habitat for injured resources in the spill affected
- 6 area.
- 7 Phase one consisted mostly of travel to
- 8 the communities to help them build their proposals and
- 9 the issue of a request for proposals or an RFO, a
- 10 federal funding opportunity. The five proposals that
- 11 are before you today represent the proposals that were
- 12 received in response to that RFP. The proposals did
- 13 complete a technical review while at NOAA and I was
- 14 part of that team and have been reviewed by our Science
- 15 Panel, the Executive Director and me.
- 16 Is there anything you wanted to add to
- 17 that, Elise?
- MS. HSIEH: No.
- 19 MS. BOERNER: Again Laurel Jennings
- 20 with the NOAA Restoration Office, she is on the line
- 21 and she is the -- I guess I'll call her the primary
- 22 investigator for this program. She is here to answer
- 23 questions about all of the projects and there are
- 24 representatives for four of the five of these proposals
- 25 on the phone to answer specific questions.

- 1 But I will begin -- we'll just take
- 2 them alphabetically as they fall into the work plan
- 3 addendum. So I'll begin with Project 13120112-A which
- 4 is the Cordova Clean Harbor Program which was submitted
- 5 by the Native Village of Eyak. This is a quick
- 6 summary.
- 7 The Native Village of Eyak and other
- 8 local citizens formed the Cordova Clean Harbor Project
- 9 in 2010. They've completed some of the planning stages
- 10 for their projects and are now requesting funds to
- 11 implement the projects. There are four specifics for
- 12 what they're requesting and that would be addressing
- 13 waste and antifreeze disposal, improving the ability to
- 14 respond to small spills and waste in the harbor, an
- 15 outreach and education program which would be done
- 16 using signage and outreach materials and a
- 17 comprehensive monitoring program that would partner
- 18 with Mussel Watch and the long-term monitoring program
- 19 for PWSRCAC.
- 20 The Science Panel members, myself
- 21 included, we definitely had some questions regarding
- 22 the implementations of the project. And I will say we
- 23 were looking at this really from a scientific
- 24 perspective and the scientific validity of the work.
- 25 So there was definitely a lot of support and

- 1 recognition of the incredible amount of coordination
- 2 and planning that has already occurred within the
- 3 program, but there were many concerns including
- 4 administrative cost of the project, the designing of
- 5 the monitoring program and the ability of the Council
- 6 to fund a small spill response workshop. The proposers
- 7 have submitted some responses to our concerns which you
- 8 have, but I will say their concerns are ongoing. If
- 9 the Council has interest in this project at this time I
- 10 would recommend modifying or requesting a modified
- 11 proposal from the Cordova Clean Harbor Program that
- 12 would address some of the legal, Science Panel and the
- 13 offices' -- office staff concerns. They're requesting
- 14 \$486,127 over three fiscal years and \$281,560 in fiscal
- 15 year '13 and that does include our 9 percent GA which
- 16 we're required to add.
- 17 And again Laurel and a representative
- 18 from the Clean Harbor Program are on line to answer any
- 19 questions you have.
- 20 CHAIRMAN POURCHOT: Thank you very
- 21 much. Just in terms of process, are we -- what's the
- 22 desire of the Council, to proceed to all of the five
- 23 separate proposals or would you like to stop and --
- 24 okay, I'm seeing some head nodding. Why don't we stop
- 25 at that point then and entertain questions that the

- 1 Council might have or additional views. I know there
- 2 was some legal issues that were raised and I know we've
- 3 got a number of legal people in the room and on line
- 4 that might be helpful also.
- 5 Commissioner Hartig.
- 6 MR. HARTIG: Yeah, thanks, Pat. In
- 7 general I definitely favor these Clean Harbor Projects
- 8 because I see results from them and we're trying to get
- 9 to results here obviously, but I do take the concerns
- 10 from the Science Panel and the concerns that I quess
- 11 some of the legal reviewers have quite seriously and
- 12 would want to hear either, Elise, from you or from the
- 13 legal people on how they view this. And not just if
- 14 they see problems, but what -- how we might cure this,
- 15 you know, to get a proposal that we could entertain.
- MS. HSIEH: I think -- I think we have
- 17 Gina Belt on the line and also we have Jen Schorr. I
- 18 don't know if Gina Belt can speak to -- regarding any
- 19 legal issues and how we could -- the Trustee Council
- 20 could find solutions for those legal issues. And if
- 21 something is constructed from that conversation we
- 22 could move back to Catherine for her to suggest how
- 23 some of the scientific and administrative issues could
- 24 be handled if we cross the legal threshold.
- 25 CHAIRMAN POURCHOT: Ms. Belt, are you

- 1 on line?
- MS. BELT: Yes, I am. I will say at
- 3 the outset that the....
- 4 CHAIRMAN POURCHOT: Excuse me. Could
- 5 you speak up or get a little closer to the mic.
- 6 MS. BELT: I'll do what I can, I've
- 7 been sick.
- 8 CHAIRMAN POURCHOT: Oh, okay. I'm
- 9 sorry.
- 10 MS. BELT: So I'd like to preface my
- 11 comments with the fact that the Department of Justice
- 12 does not render advice to the three federal agencies in
- 13 public, we have provided questions and concerns to the
- 14 members of the Trustee Council and if they wanted to
- 15 ask a question to try to elicit more information from
- 16 the proponents that would help create a modified
- 17 proposal that would be fine, but we won't be
- 18 identifying legal concerns on the record.
- MS. HSIEH: Can I ask her a question?
- 20 CHAIRMAN POURCHOT: Sure.
- MS. HSIEH: There's a couple options.
- 22 The Trustees could go into Executive Session to have
- 23 discussion with our legal counsel if that's
- 24 recommended. Also, Gina, if the small spill response
- 25 and educational sections were removed from this

- 1 proposal would that -- would that cure it enough to
- 2 pass legal review or is this a conversation you'd like
- 3 to have in Executive Session?
- 4 MS. BELT: Yes.
- 5 MS. HSIEH: Okay. Why don't we go
- 6 ahead and do that if the Council would like to do that.
- 7 CHAIRMAN POURCHOT: I -- I'm not quite
- 8 ready for that yet.....
- 9 MS. HSIEH: Oh, okay.
- 10 CHAIRMAN POURCHOT:but, Ms.
- 11 Schorr, did you have further comments?
- MS. SCHORR: No. And I agree that if
- 13 we're going to go into Executive Session which I think
- 14 is a good idea it's probably best to have a preliminary
- 15 discussion of all of the projects first and then go
- 16 into Executive Session. So.....
- 17 CHAIRMAN POURCHOT: Why don't we do
- 18 that then if -- unless people have further specific
- 19 questions on this first proposal or the first project.
- 20
- 21 (No comments)
- 22 CHAIRMAN POURCHOT: So why don't we --
- 23 why don't we turn to the second project then for an
- 24 overview.
- MS. BOERNER: Okay. So we'll move to

- 1 project 13120112-B which is Clean Boating Activities
- 2 and Improved Waste Management Using Smartphones and
- 3 Outreach. And that's been submitted by the Cook Inlet
- 4 Keeper.
- 5 The main goal of the project is to
- 6 reduce chronic pollution from oil and other hazardous
- 7 wastes generated on vessels in working harbors
- 8 throughout the spill affected area. There are three
- 9 main objectives, to engage commercial fishermen in the
- 10 process of improving vessel waste management awareness;
- 11 to develop a smartphone application that would provide
- 12 immediate access to waste management solutions; and to
- 13 widely publicize project activities to spread positive
- 14 impacts.
- There were several concerns again
- 16 raised by the Science Panel and myself, including the
- 17 potential real usage of such an app and its long-term
- 18 maintenance. The proposer has submitted some responses
- 19 to our concerns, but I do think we continue to have
- 20 doubts regarding the app's widespread adoption and the
- 21 long-term sustainability of the app.
- 22 And at this time I do not recommend
- 23 funding for this proposal. They are requesting \$66,311
- 24 over three fiscal years and \$30,537 in fiscal year '13.
- 25 CHAIRMAN POURCHOT: Any specific

- 1 comments or questions on this project?
- 2 (No comments)
- 3 CHAIRMAN POURCHOT: Tom, anything from
- 4 on line?
- 5 MR. BROOKOVER: Just a question on the
- 6 paperwork. I'm looking under the tab NOAA Clean Harbor
- 7 Projects and I'm seeing proposal number 112-B with your
- 8 reviewer -- you know, a table and reviewer comments and
- 9 then behind that are broader descriptions of the
- 10 project. Is that what I should be looking at? One of
- 11 the reasons I'm asking is, Catherine, your -- I'm not
- 12 finding your recommendation in the paperwork. I heard
- 13 you -- your recommendation there, but should I be
- 14 looking somewhere else, am I missing something?
- MS. BOERNER: I guess Elise and Cherri
- 16 can....
- 17 MS. HSIEH: Tom is on the phone in
- 18 Juneau. What -- I think a good helpful document to
- 19 start with when you review a project is the workplan
- 20 pages which summarize the Science Panel, Science
- 21 Coordinator and Executive Director comments and funding
- 22 recommendations. That page is -- you'll see at the
- 23 bottom of the page it'll say EVOS draft workplan
- 24 addendum dated February.....
- MR. BROOKOVER: Got it.

- 1 MS. HSIEH:12th, 2013.
- 2 MR. BROOKOVER: Good.
- 3 CHAIRMAN POURCHOT: I -- and, Tom, I'm
- 4 guessing here, but I think one of the differences that
- 5 you pointed are that -- my understanding was
- 6 Catherine's giving her particular recommendation, the
- 7 recommendation you find I think is no consensus so that
- 8 the reviewers didn't necessarily all share the same
- 9 recommendation.
- 10 MS. HSIEH: That's the Science Panel
- 11 recommendations.....
- 12 CHAIRMAN POURCHOT: Right.
- 13 MS. HSIEH:and here the Science
- 14 Coordinator comments is Catherine.
- MS. SCHORR: And, Tom, this is Jen.
- 16 That's on pages 8 and 9 of the work plan addendum.
- MR. BROOKOVER: Okay. Very good. I've
- 18 got it.
- 19 CHAIRMAN POURCHOT: Okay. I guess I
- 20 have it now too. Thank you.
- 21 Other comments or questions on this
- 22 particular project, the Clean Boating Activities and
- 23 Improved Waste Management?
- 24 (No comments)
- 25 CHAIRMAN POURCHOT: If not let's -- why

- 1 don't we turn then to the Cordova Snow Management
- 2 Analysis, project number ending in 112-C.
- 3 MS. BOERNER: And that's again
- 4 mitigating Cordova stormwater runoff through snow
- 5 management analysis and that was submitted by the
- 6 Copper River Watershed Project. They're specifically
- 7 looking at the snow that's removed and dumped in areas
- 8 around Orca Inlet, Eyak Lake and Odiak Pond. The
- 9 Copper River Watershed is proposing a comprehensive
- 10 snow removal plan that would help select alternative
- 11 sites for snow disposal, recommend new equipment or
- 12 practices and establish monitoring protocols for local
- 13 water bodies. As a matter of practice Cordova -- a
- 14 city of Cordova's size is not required to have a snow
- 15 management plan in place.
- 16 Again the reviewers acknowledge the
- 17 potential benefits of this type of project, but were
- 18 concerned about the reality of implementing the plan
- 19 and the tenuous link to our injured resources.
- 20 Again, you know, the output of this is
- 21 just -- is a plan, it would require Cordova -- the City
- 22 of Cordova to actually implement the plan. I would say
- 23 even based on responses that we received from the
- 24 proposer I would not recommend the proposal for funding
- 25 at this time. They're requesting \$74,428 in fiscal

- 1 year '13.
- 2 CHAIRMAN POURCHOT: Thank you. Any
- 3 comments or questions on the Cordova Snow Management
- 4 Analysis Project by Council members?
- 5 Pete.
- 6 MR. HAGEN: Yeah, Catherine, you
- 7 indicated that the -- I guess it would produce a report
- 8 that would need financial support of the city to be
- 9 implemented. Was there any supporting documentation
- 10 from the city that would indicate that they would be
- 11 willing to do that or.....
- MS. BOERNER: There was. And actually,
- 13 Laurel, if you want to talk about the letters that were
- 14 received.
- MS. JENNINGS: Hold on one second, I
- 16 can pull them all up for us.
- 17 MS. BOERNER: Yeah, letters of support
- 18 were received from the City of Cordova, but they were
- 19 submitted to NOAA's Restoration Office and I'm sure
- 20 she'll have a better summary of them than I would.
- 21 CHAIRMAN POURCHOT: Laurel, could you
- 22 introduce yourself for the record?
- MS. JENNINGS: Yes. Yes. Hi, Laurel
- 24 Jennings. I sit in the NOAA Restoration Center Office
- 25 in Seattle, Washington. And letters were received in

- 1 association with this application, they support
- 2 efforts. The first one is from State of Alaska,
- 3 Department of Fish and Game affirming that the project
- 4 is necessary and should go forward. If you're
- 5 interested I can tell you who signed it. I'll just go
- 6 through the other ones though. The next one is from
- 7 State of Alaska, Department of Transportation and
- 8 Public Facilities. And then another one from the
- 9 Native Village of Eyak again showing support and
- 10 affirming that the work is necessary.
- 11 CHAIRMAN POURCHOT: Do you have
- 12 any....
- MS. BOERNER: Was there a letter
- 14 received from the City of Cordova?
- MS. JENNINGS: I believe there was one,
- 16 but perhaps it came late.
- 17 MS. CARPENTER: Is that this project?
- 18 It -- this is Kristin from the Copper River Watershed
- 19 Project. It should be with the proposal.
- MS. BOERNER: Thank you.
- 21 MS. CARPENTER: And I guess I just
- 22 wanted to clarify, we requested from the Trustee
- 23 Council \$68,283. And with our match included the total
- 24 project cost would be \$80,983.
- MS. BOERNER: Yeah, the cost you see

- 1 there that we've put in is adding our 9 percent.
- 2 CHAIRMAN POURCHOT: Pete, did you have
- 3 any follow-up?
- 4 MR. HAGEN: Just curious too. There
- 5 was a statement, Catherine, I think you made that I
- 6 guess for cities the size of Cordova they're not
- 7 required to have a snow management plan, I guess that
- 8 would be a state regulation, right, or issue?
- 9 MS. BOERNER: I believe so. That's
- 10 what I was advised.
- MR. HAGEN: Okay.
- MR. HARTIG: Excuse me. This is Larry
- 13 Hartig. It would be a federal requirement implemented
- 14 by the state.
- MR. HAGEN: The state. I see.
- MR. HARTIG: Uh-huh.
- 17 CHAIRMAN POURCHOT: Any further
- 18 comments or questions on the Cordova Snow Management
- 19 analysis?
- 20 (No comments)
- 21 CHAIRMAN POURCHOT: Tom, any further
- 22 comment on this project?
- MR. BROOKOVER: No, nothing from me.
- 24 Thanks.
- 25 CHAIRMAN POURCHOT: Why don't we turn

- 1 then to the next project, 112-D, Landfill Restoration
- 2 Project.
- 3 MS. BOERNER: Okay. And that's the
- 4 Port Lions Landfill Restoration Project. It was
- 5 submitted by the City of Port Lions.
- 6 The city is proposing to enhance their
- 7 current six acre landfill to protect marine species in
- 8 Settlers Cove which lies directly below the structure.
- 9 The proposed improvements would reduce contamination of
- 10 groundwater and prevent leachate from moving into the
- 11 cove. They're requesting funding to create a
- 12 monitoring plan, cleanup the landfill, develop an
- 13 operations plan and begin a community outreach and
- 14 education program. Again current regulations do not
- 15 require any lining for a landfill on a town of this
- 16 size. There were several concerns raised during the
- 17 review process including the need for greater
- 18 participation by technical experts to provide guidance
- 19 to render the water quality sampling meaningful and to
- 20 ensure that the right modifications of the landfill are
- 21 selected and implemented. However the proposal is well
- 22 thought out and provides a reasonable time frame for
- 23 completion.
- 24 I am concerned that the monitoring
- 25 program which would measure the success of the project

- 1 is not comprehensive or detailed enough to demonstrate
- 2 enhanced water quality of habitat for injured resources
- 3 and I do not recommend funding the proposal at this
- 4 time. They're requesting \$57,553 in fiscal year '13.
- 5 CHAIRMAN POURCHOT: Questions by the
- 6 Council on the Landfill Restoration Project?
- 7 (No comments)
- 8 CHAIRMAN POURCHOT: Tom on line, any
- 9 questions or comments?
- MR. BROOKOVER: No, not from me.
- 11 CHAIRMAN POURCHOT: Hearing no comments
- 12 or questions, let's move then to the final project,
- 13 that would be 112-E, Oil Water Separation by
- 14 Superhydrophillic and Superhydrophobic Surfaces.
- MS. BOERNER: And this proposal is
- 16 submitted by researchers at the University of Rochester
- 17 in New York.
- The goal of this program is to develop
- 19 a uniquely structured surface that can rapidly separate
- 20 oil from water on its own. The technique would be
- 21 using a thin film to remove oil from the water's
- 22 surface and it is unique to this lab. A thin film is
- 23 rolled out over the contaminated surface and rolled
- 24 back in when saturated and then fed through an
- 25 oil/water separator machine.

- 1 The proposal definitely represents a
- 2 proof of concept for a new oil spill remediation
- 3 technique which I and the Science Panel have several
- 4 concerns regarding the feasibility of the concept. The
- 5 proposer's obvious lack of knowledge of the spill area
- 6 and the current state of EVOS in the environment and
- 7 the cost of implementing new technology if this pilot
- 8 project was successful.
- 9 While I do personally appreciate the
- 10 new technology represented by the project it is not
- 11 particularly responsive to the request for proposals
- 12 and may not be appropriate for the Harbor Protection
- 13 Program. I do not recommend funding for this proposal
- 14 at this time. They're requesting \$392,560 in fiscal
- 15 year '13.
- 16 CHAIRMAN POURCHOT: Questions or
- 17 comments on the Oil Water Separation Project by the
- 18 Council members?
- (No comments)
- 20 CHAIRMAN POURCHOT: Tom on line, any
- 21 comments or questions?
- MR. BROOKOVER: No, nothing from me.
- 23 CHAIRMAN POURCHOT: I hear no specific
- 24 comments or questions on this. I would ask the Council
- 25 in general -- I mean, in terms of action today if

- 1 people feel there is a possibility of moving positively
- 2 on a motion or action on one or more of these projects
- 3 maybe it would be worthwhile to go to Executive Session
- 4 to hear from attorneys, but let me just say if there
- 5 isn't that possibility or there isn't the possibility
- of retooling or redescribing or amending some of these
- 7 to the satisfaction of Council members then I would ask
- 8 whether or not we need to take further time with this
- 9 -- on this at this time.
- 10 Comments or suggestions by the Council?
- 11 Commissioner Hartig.
- MR. HARTIG: Yeah, thanks, Mr. Chair.
- 13 It's Larry Hartig. I mean, I appreciate the difficult
- 14 position the legal advisors are in here because the
- 15 only way I think we can work through these would be a
- 16 bit of back and forth where they would tell us what
- 17 their concerns are and then we would try to address
- 18 that here and then there would be a bit of back and
- 19 forth, but that would be hard going in and out of
- 20 Executive Session and accomplishing much efficiently.
- 21 On the other hand I don't like the idea of just leaving
- 22 these to see what happens, you know, without making
- 23 sure that somehow they're moved forward. I think
- 24 there's some good projects, I don't know that all these
- 25 would go forward, some may not be ripe yet and some may

- 1 not be appropriate for EVOS, like the last one I don't
- 2 think would be. But it would be hard to ask the
- 3 proposers to go back and fix them when we don't know
- 4 what it takes to fix them ourselves, you know, without
- 5 more guidance from Law, the legal people.
- 6 So I don't know, maybe, Elise, I -- if
- 7 you have thoughts I'd be interested in that too, but I
- 8 tend to think that maybe we -- and I don't -- we don't
- 9 meet often enough to have special meetings on something
- 10 like this so I'm kind of left with our only chance is
- 11 right here today to have an Executive Session and see
- 12 what we get out of it and come back and try to either
- 13 ask some questions on particular projects and get them
- 14 going today or at least provide some direction so next
- 15 time around people know what they need to do. So I
- 16 guess I'm leaning toward Executive Session as our only
- 17 shot.
- 18 MS. HSIEH: Yes, I think that's -- I
- 19 think that's a good way to go. And I don't know, you
- 20 can ask whomever you like into Executive Session, if
- 21 you'd like to have Catherine come, for example, and/or
- 22 before you go into Executive Session if you'd like to
- 23 identify are there any projects in particular.
- 24 Catherine and I have presented some funding
- 25 recommendations which we do not fund on all the

- 1 projects except a potential funds modify on the Cordova
- 2 Harbor. So I don't know if you'd like to hear more
- 3 from Catherine on what she'd like to see scientifically
- 4 modified or have that conversation after.
- 5 CHAIRMAN POURCHOT: Well, that -- that
- 6 is exactly I think what.....
- 7 MS. HSIEH: Right. Yeah.
- 8 CHAIRMAN POURCHOT:Commissioner
- 9 Hartig was referring to that....
- MS. HSIEH: Okay.
- 11 CHAIRMAN POURCHOT:the question
- 12 is whether or not something actually could be resolved
- 13 in terms of a modification at this particular point in
- 14 time.
- 15 But other Council members?
- MS. MARCERON: I'm comfortable going
- 17 into an Executive Session just to address that and I
- 18 would request that Catherine attend. I do just want to
- 19 hear the clarification on the fact that I know some of
- 20 the projects were asked for some additional feedback
- 21 and I want to hear sort of the DOJ's -- you know, our
- 22 legal input as to what additional information came
- 23 through and what -- again like was mentioned earlier,
- 24 what was the gap there or did it not address it at all
- 25 in the original -- you know, the follow-up question.

- 1 So I just want to get that clarification and
- 2 particularly for the Cordova -- Cordova Harbor.
- 3 CHAIRMAN POURCHOT: The question that
- 4 occurs to me on that, of course, is going into
- 5 Executive Session we heard from our attorney that, you
- 6 know, as far as her legal advise that would be an
- 7 Executive Session. If you're asking for Catherine's
- 8 further explanation of her scientific concerns I
- 9 believe that's another topic that doesn't necessarily
- 10 lend itself to Executive Session.
- MS. MARCERON: It was tied with how --
- 12 what DOJ interpreted as a result of that additional
- 13 information....
- 14 CHAIRMAN POURCHOT: Okay.
- MS. MARCERON:whether that
- 16 addressed the concern. It sounds like it did not, but
- 17 I just want to get that clarification through DOJ.
- 18 CHAIRMAN POURCHOT: Okay. So the focus
- 19 would be -- of the Executive Session would be the legal
- 20 position and hearing from the DOJ attorneys?
- MS. MARCERON: Yes.
- 22 MR. HAGEN: I think it would be useful
- 23 just to let the public know that, you know, there's a
- 24 lot of effort went into the initial idea of soliciting
- 25 for projects of this type, the NOAA Restoration Center

- 1 was volunteered, I guess, to go ahead and, you know,
- 2 solicit these and I think the proposals that came back
- 3 were in line to a large part with what we had asked
- 4 for. And I think the -- it's just a -- it's a
- 5 difficult situation because the use of these
- 6 restoration funds are restricted in a number of key
- 7 categories through Trustee policy and also with a
- 8 consent decree. So it makes it difficult to walk
- 9 through this. And unfortunately we as Trustees or
- 10 acting Trustees, we don't always know where the fine
- 11 line is. And so to the extent there's any apology, I
- 12 think we need to let the proponents know that it's not
- 13 necessarily their fault we're in this little bind, but
- 14 we'll see what we can do to work through it. So.....
- 15 CHAIRMAN POURCHOT: Any further
- 16 comments or questions?
- 17 (No comments)
- 18 CHAIRMAN POURCHOT: Why don't we
- 19 entertain a motion to go into Executive Session.
- MS. CARPENTER: Excuse me. This is
- 21 Kristin Carpenter from the Copper River Watershed
- 22 Project.
- 23 CHAIRMAN POURCHOT: Yes.
- MS. CARPENTER: If I'm -- I'm sorry, I
- 25 would raise my hand if I could, but I'm on the phone

- 1 obviously. But might we just have a minute each to
- 2 respond, I mean, we were advised to sit in on the call
- 3 and I understand you're talking about sort of legal
- 4 constraints that we're not familiar with in depth,
- 5 but....
- 6 CHAIRMAN POURCHOT: I'm not sure we are
- 7 either. I think what we'd prefer at this point is to
- 8 go in to Executive Session to hear from the Department
- 9 of Justice attorneys on particular legal issues and
- 10 then come back and I think Commissioner Hartig's
- 11 suggestion was a good one, it -- I mean, if possible to
- 12 provide some kind of further guidance if that is
- 13 possible and desirable. And if there are further
- 14 questions we would certainly entertain comments from
- 15 the project proponents. Commissioner Hartig.
- MR. HARTIG: Yeah, this is Larry Hartig
- 17 again. I move pursuant to whatever the appropriate
- 18 federal and state statutes are, I don't have them here
- 19 in front of me, that the Council go into Executive
- 20 Session for discussion with our attorneys regarding
- 21 potential legal concerns around the proposed NOAA
- 22 Harbor Projects and solely for the purpose of getting
- 23 their legal advice on their concerns on the projects
- 24 and how we might address those. And I'd also ask that
- 25 our Science Director, Catherine, also participate with

- 1 us in that.
- 2 CHAIRMAN POURCHOT: Is there a second
- 3 to that motion?
- 4 MS. SCHORR: Second.
- 5 CHAIRMAN POURCHOT: It's been moved and
- 6 seconded to go into Executive Session for the purposes
- 7 of hearing from our DOJ attorneys on the projects
- 8 before us and the inclusion of our Science Coordinator.
- 9 Any objections to that motion?
- 10 (No comments)
- 11 CHAIRMAN POURCHOT: Tom on line, any
- 12 objections?
- MR. BROOKOVER: No, no objections from
- 14 me.
- 15 CHAIRMAN POURCHOT: So.....
- MS. HSIEH: How long do you anticipate
- 17 the Executive Session, it's currently 10:40?
- 18 CHAIRMAN POURCHOT: Twenty minutes.
- MS. MARCERON: I was thinking 20
- 20 minutes.
- 21 CHAIRMAN POURCHOT: Yeah. Why don't we
- 22 do our best to wrap up in 20 minutes.
- 23 (Off record)
- 24 (Executive Session)
- 25 (On record)

- 1 CHAIRMAN POURCHOT: Okay. Why don't we
- 2 come back into session now. We're in regular session.
- 3 I want to make sure, Tom, are you back on line?
- 4 MR. BROOKOVER: I'm back. Thanks.
- 5 CHAIRMAN POURCHOT: Great. And I
- 6 assume our -- Catherine, are you back on line?
- 7 MS. BOERNER: I am.
- 8 CHAIRMAN POURCHOT: And DOJ folks?
- 9 MS. BELT: Yes.
- 10 CHAIRMAN POURCHOT: Great. Thanks so
- 11 much. Well, let's see, so where we left off was we
- 12 were on agenda item 6, the NOAA Clean Harbor Projects
- 13 and we did get a briefing from our DOJ attorneys on the
- 14 -- some of the legal aspects of these projects. Maybe
- 15 we can take up -- what's the desire of the Council at
- 16 this stage. Larry.
- 17 MR. HARTIG: Yeah, Mr. Chairman, I just
- 18 suggest we go through them starting with 112-A and just
- 19 kind of work through them. I did appreciate the
- 20 discussions we had with our attorneys and, of course,
- 21 we didn't take any action during Executive Session, but
- 22 it did help I think frame our discussion as we take up
- 23 the projects now.
- 24 CHAIRMAN POURCHOT: So if I can get
- 25 back to where I started here. If that sounds like a

- 1 good idea to the rest of the Council why don't we --
- 2 and then kind of take these one at a time and decide
- 3 what the Council would like -- how they would like to
- 4 pursue any further action.
- 5 So the first project in order then is
- 6 Prince William Sound Harbor Cleanup Program, Project
- 7 Number 13120112.
- 8 MS. HSIEH: And that's the
- 9 administrative NOAA project which assists the
- 10 individual project.
- 11 MR. HAGEN: Yeah, deal with that last
- 12 maybe.
- 13 CHAIRMAN POURCHOT: Okay. We'll put
- 14 that back a bit. How about the Cordova Clean Harbor
- 15 Program ending in 112-A?
- MR. HARTIG: Yes, Mr. Chairman, Larry
- 17 Hartig here. Again I like the Clean Harbor Projects, I
- 18 -- there's a lot in this one that I like although I
- 19 think it does need more work to satisfy some of the
- 20 legal concerns and also to address maybe some of the
- 21 other comments that we got from the Science Panel, from
- 22 Catherine. But I don't think that we have the ability
- 23 here to do that today and to get into a back and forth
- 24 with legal counsel and the proposer. But I would like
- 25 to see more work done on this one and have it come

- 1 back, if the people are willing, for consideration at
- 2 our September meeting, our next meeting currently
- 3 scheduled for September, I guess.
- 4 MS. HSIEH: The proposal would be due
- 5 September 1st, the meeting would take place in late
- 6 October, early November.
- 7 MR. HARTIG: Okay. Thanks for the
- 8 correction. Again I'd like to see more work on it, but
- 9 I caution that doesn't mean necessarily it'll get
- 10 approved by the Council, you know, there wouldn't be a
- 11 guarantee here. But the -- on the legal concerns I
- 12 think based on our discussions there's -- the biggest
- 13 one, maybe the nexus to our restoration objectives and
- 14 whether that could be put -- if that could be -- those
- 15 could be advanced through a project like this. The
- 16 other question that came up is whether we'd be putting
- 17 money towards something that -- where there's already a
- 18 legal obligation. And there was -- I can understand
- 19 those concerns too. But both of these I think that we
- 20 can flesh out and I -- from our agency, DEC's
- 21 perspective and I'll ask Pete to address this from his
- 22 agency perspective, I think that there would be an
- 23 opportunity initially for NOAA and DEC and perhaps
- 24 others to get together and say on projects like this,
- 25 on clean harbor projects like this, in other instances

- 1 what kind of benefits, environmental benefits have been
- 2 achieved, how do we think those might relate to this
- 3 proposal, how does those -- if those benefits are
- 4 realized how does that beneficially impact restoration
- 5 objectives and then use that as a framework for further
- 6 discussions with the proposer if they're willing. And
- 7 I think with that then we'd be able to get something
- 8 back that maybe would be closer to the mark and not
- 9 have the same legal concerns that we have right now.
- 10 We didn't obviously get into voting on these or into
- 11 much detail during the short period that we were in
- 12 Executive Session, I realize that there's other
- 13 concerns that were raised here by the Science Panel and
- 14 others perhaps and we didn't get to those so if, you
- 15 know, during -- if there is further question I suggest
- 16 they look at those too and see if those can be resolved
- 17 because we have to take those up and consider those in
- 18 any kind of final action.
- 19 So I wouldn't say tabling this, but put
- 20 it back for more work would be my recommendation. I --
- 21 if we can do that.
- 22 Pete, did you want to.....
- MR. HAGEN: Yeah, I'll just -- Laurel
- 24 Jennings, I think you're on the phone as well. I think
- 25 what we had considered was just as Larry indicated a

- 1 way to kind of help fix the projects or at least
- 2 provide a construct in which the Trustee Council funds
- 3 could be used to kind of further, I guess, the goals of
- 4 improving water quality in Cordova Harbor. I think --
- 5 I was really impressed with the letters of support that
- 6 came in for the project under the broad sweep of which
- 7 they were taking things, I think there were --
- 8 definitely technical issues were raised concerning
- 9 monitoring and how's that constructed and what could be
- 10 done there.
- 11 But, Laurel, I guess since this would
- 12 be a commitment for your Division, I guess, within the
- 13 agency to work with DEC and the Trustee Council and the
- 14 proponent, is that something you're willing to do?
- MS. JENNINGS: Yes, it is. We are
- 16 willing to do that.
- 17 MR. HAGEN: Okay. And this -- of
- 18 course, this would also be through the agencies as
- 19 well, kind of working with them to make sure the legal
- 20 issues are addressed adequately.
- 21 And so I guess with that response I say
- 22 I'd be supportive of the motion for this project to go
- 23 forward. And I think -- are we -- anyone else want to
- 24 speak to it or....
- 25 CHAIRMAN POURCHOT: Why don't we just

- 1 go -- see if anybody else before entertaining a motion.
- 2 Other comments or questions?
- 3 (No comments)
- 4 CHAIRMAN POURCHOT: Tom, any comments
- 5 or questions?
- 6 MR. BROOKOVER: No, none from me.
- 7 CHAIRMAN POURCHOT: Larry.
- 8 MR. HARTIG: Well, one other legal
- 9 concern that came up specific on this project was on
- 10 funding any kind of activities related to oil spill
- 11 prevention and response, in the past I think we've made
- 12 it pretty clear that we can't fund those because of the
- 13 restrictions we have on the types of projects that we
- 14 can fund. And so I'm guessing that that would probably
- 15 have to come out.
- 16 But other than that I don't know if you
- 17 need a motion -- do we need a motion, Elise, or do we
- 18 just leave this -- defer it to the next meeting with
- 19 that kind of guidance?
- 20 MS. HSIEH: I think you can just defer
- 21 it or....
- MR. HAGEN: Well, I'm thinking it might
- 23 be useful just to -- for the -- to be able to identify
- 24 this project as one we'll be willing to enter into
- 25 negotiations with the proponents to produce a project

- 1 so it would be like a.....
- 2 MR. HARTIG: Well, I don't know if
- 3 would use the term negotiation because.....
- 4 MS. HSIEH: No.
- 5 MR. HARTIG:I don't -- I think
- 6 that kind of implies that we're -- have made a decision
- 7 to....
- 8 MR. HAGEN: Oh, okay.
- 9 MR. HARTIG:enter into an
- 10 agreement and that I think we haven't.
- 11 MS. HSIEH: I think use defer.....
- MR. HAGEN: Defer would be the term.
- MS. HSIEH:just to clarify --
- 14 defer motion. So move to defer funding of this project
- 15 until....
- MR. HARTIG: Table it and take it up at
- 17 the....
- MS. HSIEH:the next regularly
- 19 scheduled meeting.
- 20 MR. HARTIG: Do we need a motion for
- 21 that?
- MS. HSIEH: I don't think you have.....
- 23 CHAIRMAN POURCHOT: I don't think so.
- MS. HSIEH:I don't think so.
- MR. HARTIG: Okay.

- 1 CHAIRMAN POURCHOT: Why don't we --
- 2 we'll considered it tabled until.....
- MR. HAGEN: Okay.
- 4 CHAIRMAN POURCHOT:and pending
- 5 resubmission or reexamination at our September or the
- 6 meeting....
- 7 MS. HSIEH: Fall.
- 8 CHAIRMAN POURCHOT:fall meeting.
- 9 MR. HARTIG: Yeah, but obviously we
- 10 have interest in it or the agencies wouldn't be wanting
- 11 to....
- 12 CHAIRMAN POURCHOT: Yeah.
- MR. HARTIG:to try to define the
- 14 process better and the goalpost better. Okay.
- 15 CHAIRMAN POURCHOT: Thank you for that
- 16 summation. The next project then before is the.....
- MS. HSIEH: You should all -- and this
- 18 is also, of course, contingent on the proposers also
- 19 being willing....
- MR. HARTIG: Right.
- MS. HSIEH:to submit.
- 22 CHAIRMAN POURCHOT: The next project
- 23 ending in 112-B, Clean Boating Activities and Improved
- 24 Waste Management Using Smartphones and Outreach.
- 25 Discussion by the Council on this project?

- 1 MS. SCHORR: I -- my concern is -- you
- 2 know, echoes those of the Science Coordinator and some
- 3 of the Science Panel. And in addition I just don't see
- 4 a sufficient nexus between restoration and the funds
- 5 spent on this project. And have some concerns about
- 6 the -- you know, some of the logistical and
- 7 technological issues raised by the comments from the
- 8 Science Panel and the Science Coordinator.
- 9 CHAIRMAN POURCHOT: Commissioner
- 10 Hartig.
- 11 MR. HARTIG: Yeah, this is Larry Hartig
- 12 again. I agree on that and I -- to me it's just kind
- 13 of a question of the proof of the concept, you know,
- 14 would this really work, would it be sustainable and
- 15 would we invest in something that would last. I'd like
- 16 to see -- if we're going to see proposals like this
- 17 more of a track record.
- 18 CHAIRMAN POURCHOT: Other comments,
- 19 questions?
- 20 (No comments)
- 21 CHAIRMAN POURCHOT: Tom on line?
- MR. BROOKOVER: No. No, I concur with
- 23 what Jen said.
- MR. HAGEN: Yeah. This is Pete. I
- 25 think it's -- I think it's a really innovative idea.

- 1 I'm just sort of imagine the people that actually use
- 2 the apps once created are ones that would be probably
- 3 doing the best management practices regardless on their
- 4 own and I'm just wondering if that's really the
- 5 audience that would -- that it would really be --
- 6 should be geared toward would be the more casual and
- 7 not conscientious users of the harbors would be the
- 8 ones we'd actually want to target and I don't know if
- 9 they'd be looking at their smartphones regularly to
- 10 update where to put their wastes. I think it's a neat
- 11 idea, but I just find there are some issues and I would
- 12 agree with the Science Coordinator's comments.
- 13 CHAIRMAN POURCHOT: What's the desire
- 14 of the Council on this project?
- MS. MARCERON: Is this one for a motion
- 16 -- ready for a motion?
- 17 CHAIRMAN POURCHOT: I think so.
- 18 MS. MARCERON: All right. I would make
- 19 the motion that we do not fund Project, I'll just end
- 20 it with the 112-B.
- 21 CHAIRMAN POURCHOT: Uh-huh. Second to
- 22 the motion?
- MR. HARTIG: I'll second.
- 24 CHAIRMAN POURCHOT: It's been moved and
- 25 seconded to not approve the 112-B. Discussion on the

- 1 motion?
- 2 (No comments)
- 3 CHAIRMAN POURCHOT: Tom, any discussion
- 4 on the motion?
- 5 MR. BROOKOVER: No.
- 6 CHAIRMAN POURCHOT: Is there an
- 7 objection to the motion?
- 8 (No comments)
- 9 CHAIRMAN POURCHOT: Tom, objection?
- MR. BROOKOVER: Not from me, no.
- 11 CHAIRMAN POURCHOT: Then without
- 12 objection the motion passes to not approve funding for
- 13 the 112-B.
- MS. HSIEH: (Indiscernible away from
- 15 microphone)....
- 16 CHAIRMAN POURCHOT: Why don't we just
- 17 on that -- on the first consideration I'm taking that
- 18 as we are deferring -- we are deferring taking action
- 19 or deferring approving that Cordova Project; is that
- 20 right?
- 21 MR. HARTIG: Defer taking action on
- 22 dash one, that's the way I understand it.
- 23 CHAIRMAN POURCHOT: Yes. Okay. That's
- 24 my understanding too.
- 25 So the next one you come to is 11 --

- 1 ending in 112-C, Cordova Snow Management Analysis.
- 2 Comments, further questions by the Council?
- 3 (No comments)
- 4 CHAIRMAN POURCHOT: Tom, any comments?
- 5 MR. BROOKOVER: No, Mr. Chair.
- 6 CHAIRMAN POURCHOT: Commissioner
- 7 Hartig.
- 8 MR. HARTIG: Yeah, Mr. Chairman, I look
- 9 at this one sort of like the Clean Harbor one where
- 10 there's some promise in it. I don't know if I feel
- 11 quite as strongly that there's as much promise in this
- 12 one as the other one, but it's hard to say at this
- 13 point. It's -- and I understand that the first step on
- 14 a project like this is the planning and I do appreciate
- 15 the letter of support from the city. And so I would --
- 16 I'd put this -- I do put this in the same category as
- 17 dash A, 112-A. I'd like to see if Cordova, the
- 18 proponents, are willing to have more discussion with --
- 19 just along the lines that I've talked about on the dash
- 20 one -- A. And so what I'd like to do would be, if the
- 21 others are willing to defer action on this until
- 22 September meeting -- October meeting, excuse me, and
- 23 proceed as we already discussed on the dash A project.
- 24 CHAIRMAN POURCHOT: Other comments or
- 25 questions by the Council?

- 1 MS. SCHORR: I agree with that
- 2 suggestion.
- 3 CHAIRMAN POURCHOT: Pete.
- 4 MR. HAGEN: Yeah, I think that would be
- 5 a good suggestion as well. It -- I think there was
- 6 some concerns raised about -- that came up in the
- 7 technical reviews that should also be addressed as well
- 8 in further discussion. But I'd like to see -- at least
- 9 give them the opportunity to see if it can be made to
- 10 work.
- 11 CHAIRMAN POURCHOT: So we're getting
- 12 little emails from our attorneys on suggestions for
- 13 clarifying our actions. I think they would prefer that
- 14 we actually make a motion or move to defer.....
- MR. HARTIG: Okay.
- 16 CHAIRMAN POURCHOT:action. So if
- $17\ \mathrm{no}\ \mathrm{harm}\ \mathrm{to}\ \mathrm{that},\ \mathrm{Larry},\ \mathrm{maybe}\ \mathrm{I}\ \mathrm{could}\ \mathrm{get}\ \mathrm{you}\ \mathrm{to}\ \mathrm{maybe}$
- 18 make....
- MR. HARTIG: Sure.
- 20 CHAIRMAN POURCHOT:a double
- 21 motion for the first one and this snow management
- 22 project.
- MR. HARTIG: Yeah. Thank you, Mr.
- 24 Chairman. I move that the Council defer consideration
- 25 -- further consideration and action on Project

- 1 13120112-A, Cordova Clean Harbor Program and Project
- 2 Number 13120112-C, Cordova Snow Management Analysis,
- 3 until our next scheduled meeting and to provide an
- 4 opportunity for additional effort by the agencies to
- 5 attempt to better clarify a process for us to evaluate
- 6 these projects in light of some of the legal concerns
- 7 that were raised and also provide an opportunity for
- 8 some further dialogue with the proponents if they're --
- 9 if they are willing on how these projects may -- each
- 10 of these projects could be tailored to help resolve
- 11 some of those concerns and also some of the concerns
- 12 that were raised in comments from the Science Panel and
- 13 the advisor and the Science Advisor Coordinator -- I
- 14 mean, Science Coordinator. So that's my motion.
- 15 CHAIRMAN POURCHOT: Second to the
- 16 motion?
- MS. MARCERON: I second.
- 18 CHAIRMAN POURCHOT: It's been moved and
- 19 seconded. Further discussion?
- 20 (No comments)
- 21 CHAIRMAN POURCHOT: I would just ask
- 22 for the record does Council understand the motion and
- 23 the rationale for the motion.
- 24 (No comments)
- 25 CHAIRMAN POURCHOT: Tom.

- 1 MR. BROOKOVER: Yes, I understand it
- 2 and I concur with it.
- 3 CHAIRMAN POURCHOT: Is there any
- 4 objection to the motion to defer the two projects
- 5 pending additional work to overcome some of the stated
- 6 objections to the project until the fall meeting?
- 7 (No comments)
- 8 CHAIRMAN POURCHOT: Tom.
- 9 MR. BROOKOVER: No objection here.
- 10 CHAIRMAN POURCHOT: Thank you.
- MR. BROOKOVER: No objection here.
- 12 CHAIRMAN POURCHOT: Without objection
- 13 then the two projects will be deferred to the fall
- 14 meeting.
- MS. HSIEH: I think Gina wanted a yea
- 16 on the motion from each member of the Council.
- 17 CHAIRMAN POURCHOT: We're not going to
- 18 give her that.
- MS. HSIEH: Okay.
- 20 CHAIRMAN POURCHOT: That means --
- 21 without objection means.....
- MR. HARTIG: The motion passed.
- 23 CHAIRMAN POURCHOT:the motion
- 24 passed unanimously.
- 25 So let's turn to 112-D, the Landfill

- 1 Restoration Project. Further comments or questions by
- 2 the Council?
- 3 (No comments)
- 4 CHAIRMAN POURCHOT: What's the desire
- 5 of the Council on the Landfill Restoration Project?
- 6 MS. MARCERON: I would make the motion
- 7 not to fund Project Number 13120112-D, Landfill
- 8 Restoration Project based on the technical and science
- 9 feedback that we received.
- 10 CHAIRMAN POURCHOT: Is there a second
- 11 to the motion?
- MR. HARTIG: I'll send.
- 13 CHAIRMAN POURCHOT: It's been moved and
- 14 seconded to not fund the Landfill Restoration Project.
- 15 Is there discussion or further questions by Council
- 16 members?
- 17 (No comments)
- 18 CHAIRMAN POURCHOT: Tom.
- MR. BROOKOVER: No, no further
- 20 discussion from me.
- 21 CHAIRMAN POURCHOT: Without further
- 22 discussion is there any objection to the motion to not
- 23 fund the Landfill Restoration Project 112-D?
- MR. BROOKOVER: No objection here.
- 25 CHAIRMAN POURCHOT: Without objection

- 1 then the motion passes unanimously.
- 2 Moving then to 13120112-E, Oil Water
- 3 Separation by Superhydrophillic and Superhydrophobic
- 4 Surfaces. Further questions or comments on this
- 5 project by Council members?
- 6 (No comments)
- 7 CHAIRMAN POURCHOT: Mr. Hartig.
- 8 MR. HARTIG: Thank you, Mr. Chairman.
- 9 I move that we not approve Project Number 13120112-E.
- 10 I concur in the comments by the Science Panel and
- 11 Coordinator and the Executive Director. Although it
- 12 may have some interest as a proof and concept type
- 13 project it doesn't fit well with the projects that we
- 14 can legally fund and I don't -- so I don't think that
- 15 we should be funding this one.
- 16 CHAIRMAN POURCHOT: Is there a second
- 17 to that motion?
- MS. SCHORR: Second.
- 19 CHAIRMAN POURCHOT: It's been moved and
- 20 seconded to not fund the Oil Water Separation Project.
- 21 Any -- is there objection to the motion?
- (No comments)
- 23 CHAIRMAN POURCHOT: Tom.
- MR. BROOKOVER: No, no objection.
- 25 CHAIRMAN POURCHOT: Then without

- 1 objection the motion to not fund passes unanimously.
- 2 Should -- then do -- should we go back
- 3 to the first project then?
- 4 MS. HSIEH: Yes.
- 5 CHAIRMAN POURCHOT: So let's return
- 6 then to the first one by the way it was in the book --
- 7 in our book which would be the Prince William Sound
- 8 Harbor Cleanup Program.
- 9 MS. HSIEH: Catherine, can she.....
- MS. BOERNER: I'm here.
- MS. HSIEH:offer some
- 12 guidance....
- 13 CHAIRMAN POURCHOT: Yeah.
- MS. HSIEH:with regard to the
- 15 funding that you as Science Coordinator would foresee
- 16 would be necessary to facilitate potentially the two
- 17 projects which have been deferred.
- MS. JENNINGS: Yes, hi. We are ready
- 19 to move forward with the different groups and we'll
- 20 work on these.
- 21 CHAIRMAN POURCHOT: The question is
- 22 really on the funding.
- MS. JENNINGS: I'm sorry, can you
- 24 repeat those funding questions.
- MS. BOERNER: What funding would you --

- 1 would you need or do you have funding currently that
- 2 would help you do this?
- 3 MS. JENNINGS: Yes, we could continue
- 4 in the capacity we're doing to work with the applicants
- 5 to revise the proposals, to continue communication with
- 6 the different Trustees and legal, of course. And yes,
- 7 we can do that with the agency funds that, you know, we
- 8 already have. We did submit a revised proposal for the
- 9 project management and I think -- it sounds like that
- 10 could kick in if funding is awarded. But since that
- 11 won't be decided for several months we'll be able to
- 12 just continue as we are.
- 13 CHAIRMAN POURCHOT: Okay. Comments by
- 14 the Council members on that. Jen.
- 15 MS. SCHORR: So just so I understand
- 16 the proposal would be modified to move forward with the
- 17 two projects that have been deferred. And -- but NOAA
- 18 does not require any funding at this time to undertake
- 19 that process.
- 20 CHAIRMAN POURCHOT: That's what I
- 21 understood from what she said.
- MS. SCHORR: Is that correct, Laurel?
- MS. JENNINGS: Yes.
- MS. SCHORR: Excellent.
- MS. JENNINGS: Thank you. That's a

- 1 good summary.
- MS. SCHORR: Okay. Thank you.
- MS. MARCERON: And you would also --
- 4 this is Terri, you would also submit another proposal
- 5 in September like here if those two are submitted in
- 6 order to support that program, I mean.....
- 7 MS. JENNINGS: Yes, correct. A revised
- 8 project management budget based on two rather than
- 9 five.
- 10 MS. SCHORR: Correct. Thank you.
- 11 CHAIRMAN POURCHOT: With that
- 12 understanding, desires of the Council on action on this
- 13 particular project number?
- MR. HAGEN: Well, I think this would be
- 15 one to put forward a motion, I guess, to defer this
- 16 project until September or until the other -- depending
- 17 on the fate of the other projects coming forward.
- 18 So....
- 19 CHAIRMAN POURCHOT: Why don't we -- if
- 20 you don't mind we'll take that as a motion to.....
- MR. HARTIG: And I'll second it.
- 22 CHAIRMAN POURCHOT:defer. It's
- 23 been moved and seconded to defer funding of 13120112,
- 24 the Prince William Sound Harbor Cleanup Program pending
- 25 resubmission or reconsideration if any at the fall

- 1 meeting.
- 2 MR. HARTIG: Yeah, Mr. Chair. I think
- 3 he meant deferred consideration....
- 4 CHAIRMAN POURCHOT: Deferred.....
- 5 MR. HARTIG:not deferred funding.
- 6 CHAIRMAN POURCHOT: Yes, deferred
- 7 consideration. It's been moved and seconded and
- 8 clarified on the motion, is there -- are there
- 9 objections -- any objection to the motion?
- 10 (No comments)
- 11 CHAIRMAN POURCHOT: Tom.
- MR. BROOKOVER: No objection.
- 13 CHAIRMAN POURCHOT: Then without
- 14 objection the motion to defer is approved unanimously
- 15 for the Prince William Sound Harbor Cleanup Program.
- 16 CHAIRMAN POURCHOT: Any further action
- 17 or comments or -- by Council members before leaving
- 18 this agenda item?
- (No comments)
- 20 CHAIRMAN POURCHOT: Okay. That brings
- 21 us to the Marine Debris Project.
- We've had a request for a short break
- 23 so this is a good time. Before getting into the next
- 24 agenda item why don't we take a five minute break and
- 25 be right back.

- 1 (Off record)
- 2 (On record)
- 3 CHAIRMAN POURCHOT: Let's come back to
- 4 order again. And, Tom, are you back with us on line?
- 5 MR. BROOKOVER: I am.
- 6 CHAIRMAN POURCHOT: Great. Let's see.
- 7 Let's go to the Marine Debris Project Amendment. And,
- 8 Catherine, were you going to introduce us to this?
- 9 MS. BOERNER: Yes, I will. This is
- 10 Project 13120116-AM 2.21.13. It's an amendment to the
- 11 Marine Debris Removal Program submitted by the Gulf of
- 12 Alaska Keeper.
- Just as a general background this is an
- 14 amendment to their original proposal which was funded
- 15 in fiscal year '12 and any work that was originally
- 16 proposed for fiscal year '13 and '14 under that project
- 17 will be pushed back a year in order to allow this
- 18 project to continue. And the basic premise of the
- 19 project is when we did fund this work and they began
- 20 going out into the field that summer they started
- 21 noticing debris, tsunami debris from the Japanese
- 22 earthquake starting to arrive in Gulf of Alaska
- 23 beaches. And unfortunately it is now moved into Prince
- 24 William Sound and the spill affected area. And
- 25 specifically moving into and around the Naked Island

- 1 group which is very critical habitat for both herring
- 2 and seabirds. They're asking to be able to go out and
- 3 work with NOAA and DEC to continue to cleanup this
- 4 debris which again is -- has a high potential for
- 5 damage to seabirds and fish that do eat the small
- 6 styrofoam pieces. It was unanimously considered -- it
- 7 was unanimously recommended for funding between myself,
- 8 Elise and the Science Panel. And I will say the
- 9 Science Panel was very supportive of the urgency to
- 10 getting this debris removed from the essential habitat.
- 11 The few concerns that we did have were addressed by the
- 12 proposer which included a map of the beaches that would
- 13 be cleaned and their plan for coordinating with DEC and
- 14 NOAA. And they're requesting \$483,088 for fiscal year
- 15 '13.
- 16 Chris, are you on the line?
- 17 (No comments)
- 18 MS. BOERNER: No. I was hoping Chris
- 19 Pallister, the Project Manager would be on the line,
- 20 but I don't believe he was able to.
- 21 CHAIRMAN POURCHOT: Thank you very
- 22 much, Catherine. Questions or comments by Council
- 23 members?
- 24 (No comments)
- MR. HARTIG: Mr. Chairman.

- 1 CHAIRMAN POURCHOT: Larry.
- 2 MR. HARTIG: Larry Hartig. I'll go
- 3 ahead and make a motion so we can get it on the table
- 4 for discussion. I move we approve funding, \$483,088
- 5 which includes 9 percent GA for Project 13120116-AM
- 6 2.21.13, Marine Debris Removal Program for fiscal year
- 7 2013.
- 8 CHAIRMAN POURCHOT: Is there a second
- 9 to the motion?
- MS. MARCERON: I second.
- 11 CHAIRMAN POURCHOT: It's been moved and
- 12 seconded to approve funding for the Marine Debris
- 13 Removal Program. Discussion or further comment or
- 14 question by the Council? Jen.
- MS. SCHORR: Yeah. Catherine, hi, it's
- 16 Jen. So I just had a question. It looks like there
- 17 has been some funding set aside to deal with tsunami
- 18 debris, but it's not yet known where that funding will
- 19 be spent for marine debris removal; is that correct?
- 20 MS. BOERNER: It hasn't -- in most
- 21 cases it hasn't even been set aside. The funding that
- 22 has come has been quite small and it's been distributed
- 23 among five different states along the Pacific border.
- 24 And I do know that the amount of funds, which I'll be
- 25 honest I'm not entirely sure what that amount was, have

- 1 already been spent cleaning up whatever debris was
- 2 available, but of course they didn't move into the
- 3 spill affected or into Prince William Sound which is
- 4 what this project is hoping to do. As for other
- 5 funding that's supposed to come from both the
- 6 government and from the Japanese government, there is
- 7 no time table for when that funding will be available
- 8 and how much will be available.
- 9 MS. SCHORR: Okay. So I guess what I
- 10 was -- my -- where I was going with my question is
- 11 there's -- it doesn't sound like there's much chance
- 12 that there will be an overlap of debris removal areas,
- 13 you know, with different funding sources?
- MS. BOERNER: I think that would be
- 15 extremely unlikely.
- MS. SCHORR: Okay. And what about has
- 17 NOAA received funding. I see in the supplemental
- 18 information that DEC received an initial allocation,
- 19 but I'm just curious whether you know that -- whether
- 20 NOAA has also received funding and if so how much that
- 21 funding is?
- 22 MS. BOERNER: That I am not familiar
- 23 with. I don't know if anyone is familiar with that, if
- 24 Pete -- I'm not familiar with what funds have been
- 25 available and how much.

- 1 MS. SCHORR: Okay.
- 2 MR. HAGEN: This is Pete.
- 3 Unfortunately I should know the answer, but I don't.
- 4 But if there was any money it's not very much. It's
- 5 money that's shared across, the program I guess gets --
- 6 is a nationwide program and they share it with all
- 7 coasts, I guess. And specific money for the tsunami I
- 8 don't believe has come directly from congressional
- 9 appropriations yet. So we're still waiting action on
- 10 that. And maybe Larry might know a little more, he's
- 11 involved with....
- MR. HARTIG: Yeah, thank you, Mr.
- 13 Chair. Larry Hartig. Yeah, Governor Parnell had
- 14 signed an executive order, puts DEC as the lead agency,
- 15 the coordinating agency for the state and the point of
- 16 contact for the federal agencies and, of course, NOAA
- 17 has their National Marine Debris Program as Pete
- 18 mentioned, but there is no special marine debris --
- 19 tsunami marine debris funding that congress has
- 20 approved that I'm aware of. We did get 50,000 last
- 21 fall, the state did, DEC did, and a grant from NOAA
- 22 which was passed through that was used for work in
- 23 Prince William Sound, cleanup work last fall. And the
- 24 Japanese marine or the Japanese gift, the 5 million,
- 25 that'll be split somehow among the western states, it

- 1 isn't necessarily sure how that will be apportioned
- 2 yet. We anticipate getting the first bit of that
- 3 money, I think it's 250,000 through NOAA that could be
- 4 used early part of this summer and we turn around and
- 5 apply for additional funds. But regardless we know
- 6 that there won't be near enough.
- 7 The scope of the problem has been
- 8 fairly well defined to date. We did a conference of
- 9 aerial survey with the contractor, Tim Veenstra, I
- 10 think we presented it at the last meeting -- Trustee's
- 11 meeting. And since then we've seen -- and it basically
- 12 showed debris all the way down from Alaska peninsula
- 13 all the way down to Southeast and particularly the
- 14 outer beaches in Prince William Sound, Naked Island
- 15 that we talked about a minute ago and was hit really
- 16 particularly hard. And we seen that in the field an
- 17 estimate of about 30 percent additional debris just
- 18 from what we saw last fall has come in over the winter.
- 19 So the problem is big and it is by and large styrofoam
- 20 type material that's showing up now, oyster-breeze (ph)
- 21 used for mariculture and construction material and that
- 22 -- we seen that styrofoam breakdown in the surf and
- 23 that's the big issue is what happens with it especially
- 24 when it gets broken down in pieces the size that
- 25 animals and fish and birds can ingest and we are seeing

- 1 evidence that that's happening. And we know what the
- 2 consequence of ingestion of plastics is and that -- and
- 3 the ill effects of that on wildlife. Research is still
- 4 being done on styrofoam, but there's probably some
- 5 similarities there. So we think there would be impacts
- 6 and that there's a need to move pretty quick because
- 7 the stuff's breaking down. And any funding -- other
- 8 funding sources that may be out there, they're not
- 9 going to be very immediate and there's nothing for
- 10 sure. And what looks probable the amounts aren't near
- 11 enough to cover what we know is already there. So I
- 12 don't worry about any overlap.
- MS. SCHORR: Thank you.
- 14 CHAIRMAN POURCHOT: Other comments or
- 15 questions?
- MR. HAGEN: I guess just a
- 17 question....
- 18 CHAIRMAN POURCHOT: Pete.
- 19 MR. HAGEN:on the funding. So we
- 20 approved one -- it was -- initially the proposal was a
- 21 three year project, we approved the first year of it
- 22 and I guess that money has been spent. And....
- MS. BOERNER: Yes.
- MR. HAGEN:this proposal is a
- 25 modification of what was initially so it's part of

- 1 that, I guess is it new money, I guess it's -- I guess
- 2 the proposal they've submitted is sort of the second
- 3 year of that commitment to do three years, is it, are
- 4 we now.....
- 5 MS. BOERNER: No.
- 6 MR. HAGEN:committing to a four
- 7 year....
- 8 MS. BOERNER: No, this is an amendment,
- 9 this is addition to the original funding. They're
- 10 actually going to push back the work that they had
- 11 originally scheduled for fiscal year '13 and '14 in
- 12 order to insert this.
- MR. HAGEN: I see.
- MS. BOERNER: Because this was an
- 15 unexpected project, you know, this wasn't something
- 16 they had planned on doing.
- MR. HAGEN: Okay.
- 18 MS. HSIEH: However the funding is
- 19 reviewed by you every year so as.....
- MS. BOERNER: Right.
- MS. HSIEH:this is a shifting
- 22 target here so as -- every year you can kind of -- this
- 23 proposal can adjust and the Trustee Council can also
- 24 adjust its expectations regarding its investment in
- 25 this area depending on how things develop.

- 1 MR. HAGEN: Okay. So but essentially
- 2 this is new monies in a way. I'm -- well, I guess it's
- 3 -- their suggestion is now to have a four year program.
- 4 MS. HSIEH: That's their....
- 5 MR. HAGEN: Yeah.
- 6 MS. HSIEH:projection.
- 7 MR. HAGEN: Okay.
- 8 MS. MARCERON: But my understanding is
- 9 we're only approving the fiscal year '13 one year.....
- MR. HAGEN: Okay.
- MS. MARCERON:and they added some
- 12 maps that would show based on recent tsunami
- 13 information a modification of where they would focus
- 14 their work. That's my understanding of this amendment.
- MS. SCHORR: And so this amendment then
- 16 -- Terri, just following up on what you were just
- 17 saying, is for the total of \$443,200 in EVOS funds?
- MS. HSIEH: It is.
- 19 MS. SCHORR: For fiscal year 2013.
- 20 MS. HSIEH: FY 2013. Although I'd like
- 21 Catherine and Linda to confirm -- oh, I think it's
- 22 okay. to confirm management funds are all right.
- MS. BOERNER: Uh-huh.
- MS. SCHORR: Does that include GA?
- MS. HSIEH: Yes.

- 1 MS. BOERNER: The funding that you have
- 2 before you includes the 9 percent GA.
- MS. SCHORR: Okay. Thank you.
- 4 CHAIRMAN POURCHOT: Any other comments
- 5 or question?
- 6 (No comments)
- 7 CHAIRMAN POURCHOT: Tom on line.
- 8 MR. BROOKOVER: No. No, I don't have
- 9 any other questions or comments.
- 10 CHAIRMAN POURCHOT: Any further
- 11 comments or questions? And I'm -- I apologize, you did
- 12 make the motion?
- MR. HARTIG: Yeah.
- 14 CHAIRMAN POURCHOT: Okay. And it was
- 15 seconded. Okay. If there's no further comments or
- 16 questions then the motion before us is to approve
- 17 funding for 13120116 as amended, I guess, on the Marine
- 18 Debris Removal Program. Is there any objection to the
- 19 funding of that project?
- 20 (No comments)
- 21 CHAIRMAN POURCHOT: Tom.
- MR. BROOKOVER: No, no objection.
- 23 CHAIRMAN POURCHOT: Then without
- 24 objection the motion to approve passes unanimously.
- 25 And we'll move on to the next one.

- 1 Kodiak Amendment. And do we have some folks here from
- 2 Fish and Wildlife Service or Koniag folks? Come on
- 3 forward. I would ask that kind of -- Mitch, did you
- 4 want to come up or someone from the Fish and Wildlife
- 5 Service to....
- 6 MR. ELLIS: We thought that we'd give
- 7 Will a chance to talk and.....
- 8 CHAIRMAN POURCHOT: Okay.
- 9 MR. ELLIS:then Mark Fink and I
- 10 would come up and answer any questions.
- 11 CHAIRMAN POURCHOT: Very good. Okay.
- 12 I would -- we do have materials, we have been briefed
- 13 and so I would just ask the -- for a very brief
- 14 explanation.
- MR. ANDERSON: I can be very brief.
- 16 And....
- 17 CHAIRMAN POURCHOT: Very good.
- MR. ANDERSON:first of all I'd
- 19 like to thank you for providing us the time to work on
- 20 some of the issues that were outstanding with respect
- 21 to the easement agreement. I think that we used that
- 22 time very productively and there was a lot of hard work
- 23 and cooperation amongst all the parties to try to
- 24 resolve those issues. And for the most part I think
- 25 we're there, I think we still have some wording changes

- 1 to the proposed amendments based upon comments that we
- 2 received from both the state and Fish and Wildlife
- 3 Service.
- 4 But the one area that has not been
- 5 addressed is how these various initiatives will be
- 6 funded. From Koniag's perspective while we do receive
- 7 an annual payment each year from the easement to --
- 8 that compensates us for the -- you know, the granting
- 9 of a public access, an important part of the
- 10 consideration was, in fact, you know, the protection of
- 11 the land, enforcement of the permitting system, the
- 12 protection of the archeological resources and absent
- 13 funding for those initiatives we don't feel like we are
- 14 receiving all the consideration that easement agreement
- 15 calls for. And so we've put forth a proposal that I
- 16 believe addresses the funding shortfall and we look to
- 17 the Council to approve creation of that special
- 18 stewardship account and I believe that -- should that
- 19 occur that, you know, Koniag is prepared to continue
- 20 with the easement agreement as amended.
- 21 And I think that was fairly brief.
- 22 CHAIRMAN POURCHOT: Thank you very
- 23 much. For the record, Mr. Anderson, will you just.....
- MR. ANDERSON: Oh, yeah. My name is
- 25 William Anderson, Jr., I'm President and CEO of Koniag,

- 1 Incorporated.
- 2 CHAIRMAN POURCHOT: Questions for Mr.
- 3 Anderson?
- 4 (No comments)
- 5 CHAIRMAN POURCHOT: Tom, any questions?
- 6 MR. BROOKOVER: No, not at this time.
- 7 MR. HARTIG: I'll have some questions
- 8 in a minute, but I want to hear from the others first.
- 9 CHAIRMAN POURCHOT: Okay. Great.
- 10 Thank you very much. Mitch. Maybe you can introduce
- 11 yourselves for the record here.
- 12 MR. ELLIS: Sure. My name's Mitch
- 13 Ellis, I work for the U.S. Fish and Wildlife Service.
- 14 I'm the Chief of the National Wildlife Refuge System in
- 15 Alaska.
- MR. FINK: And I'm Mark Fink for the
- 17 Department of Fish and Game, Habitat Biologist and I
- 18 work on land issues for the Department statewide.
- 19 CHAIRMAN POURCHOT: And did you have
- 20 some opening comments?
- 21 MR. ELLIS: I think I was going to say
- 22 a lot more, but I'll keep it very brief. I also would
- 23 like to thank the Council for allowing us the time, I
- 24 know there was an extension granted at the last
- 25 meeting. I also think that we used the time very

- 1 productively and for the most part came to agreement on
- 2 many of the items that were at issue.
- 3 With regard to a couple of the specific
- 4 items, just for the record I would state that the Fish
- 5 and Wildlife Service, we support the concept of a
- 6 stewardship fund insofar as it is tied directly to the
- 7 grantee's responsibilities under Sections 5A and 5B of
- 8 the Conservation Easement Agreement and Section 10 of
- 9 the Master Agreement. So in other words as long as the
- 10 funding is directly tied to the very specific items
- 11 that are mentioned in the agreements that are above and
- 12 beyond the normal activities of the agency, we would
- 13 support that.
- 14 The -- I think the only other thing
- 15 I'll say at this time is that -- maybe that we regret
- 16 not having a more final and detailed proposal for the
- 17 group. We appreciate the Council giving us the time to
- 18 work on this and we do regret not having that available
- 19 for you today.
- 20 So I'll turn it over to Mark at this
- 21 point.
- MR. FINK: Yeah, Mark Fink again with
- 23 Department of Fish and Game. I like Mitch and Will
- 24 actually do appreciate the time you gave us to work out
- 25 some tweaks, trying to make the conservation easement

- 1 and management implementation of it about as best as it
- 2 could be. I too think we're very close, a few issues
- 3 that we -- Fish and Game at least still has some
- 4 concern with that we haven't quite addressed. One
- 5 particularly is expansion of permitting and the
- 6 unguided users beyond the half mile corridor. We still
- 7 have concerns or whether that's needed. And we've
- 8 closed with Koniag trying to do our work out there on
- 9 the conservation easement, particularly the Karluk
- 10 River and we appreciate your efforts trying to assist
- 11 us in getting some permit structure there to do some of
- 12 our salmon work out there and I -- they've got a
- 13 proposal there for doing that.
- I guess we'd just ask you to consider
- 15 that and we -- that's about all I have to say. And
- 16 we're here for questions.
- 17 CHAIRMAN POURCHOT: I would just say it
- 18 is -- presents to the Council kind of a difficult
- 19 situation as we speak here today because about a week
- 20 or two ago we did receive a, I guess, unilateral sort
- 21 of agreement from Koniag and then we had -- we had no
- 22 way to evaluate a lot of the terms of that and
- 23 obviously there wasn't time to get a response from
- 24 either the state Fish and Game or Fish and Wildlife
- 25 Service. So we don't quite how to reconcile all those

- 1 pieces and I think it does present a very difficult
- 2 problem today for the Council.
- 3 Other comments or questions? Larry.
- 4 MR. HARTIG: Yeah. Thank you, Mr.
- 5 Chairman. Larry Hartig here. I do appreciate all the
- 6 work that went into it and I'm very sympathetic to
- 7 Koniag's concerns about kind of the history and kind of
- 8 the future of management of activities out there and
- 9 whether it's fulfilling everybody's intent from the
- 10 original agreements. But it did strike me as there's a
- 11 lot in here that isn't EVOS, you know, and so that
- 12 makes another difficult task for us to kind of sort
- 13 through this, you know, they're all legitimate concerns
- 14 and stuff that are being addressed, but it's like well,
- 15 if this is a make it or break it deal here that we have
- 16 to have this fund and it has to look like this to have
- 17 the conservation easement, Koniag approved that, the
- 18 continuation of that, there's a lot in here that isn't
- 19 us, you know, in terms of -- and that goes into what
- 20 the Chairman said is that it's hard for us to weigh in
- 21 on those because one, we don't have complete
- 22 understanding of those issues and we don't have that
- 23 kind of authority to deal with those particular issues.
- 24 And so it's kind of a toss -- it's a bit tossed back to
- 25 the agency, particularly U.S. Fish and Wildlife

- 1 Service, to a degree Fish and Game is is this the kind
- 2 of agreement that you'd be willing to live with, you
- 3 know, perhaps in perpetuity because it does strike me
- 4 as it would take a lot of management and, you know,
- 5 managing the fund and the uses of the fund and how it's
- 6 invested and the reporting on it and who's out there
- 7 when and who's reporting those activities to who and on
- 8 and on. It's -- and it -- when I got it I thought
- 9 well, if we just boil it down to what the Trustees are
- 10 interested in and then tell the agencies well, the rest
- 11 of it's for you to go work on, it's not us, but somehow
- 12 they got -- they're linked here which makes it hard for
- 13 us to to proceed until kind of you have your
- 14 negotiations which really don't totally involve us. So
- 15 I don't know how to -- I guess Fish and Wildlife
- 16 Service and, I mean, I don't want to put you on the
- 17 spot, but is this the kind of thing that you would
- 18 agree to or would you rather just spend more time and
- 19 work on it more with them?
- 20 MR. ELLIS: Well, thank you for the
- 21 comment and the question. I think the conservation
- 22 property's very important and the Master Agreement
- 23 points to the values of and the relationship of those
- 24 values to the -- to the spill. And we do value it, we
- 25 like the partnership with Koniag and the state and we

- 1 feel it's -- it is worth a lot of effort. Again
- 2 getting back to my original comments, the -- really our
- 3 support of the -- any stewardship fund is tied to
- 4 really our obligations in addition to what we would
- 5 already be doing on Kodiak National Wildlife Refuge.
- 6 So the permit requirements, managing that process on
- 7 the conversation property, any kind of public use
- 8 management or law enforcement obligations that are
- 9 additive as it relates to the conservation property and
- 10 minimizing damage by any access that is gained by the
- 11 conservation easement. So opening those areas to
- 12 agency use and public use has responsibilities. So to
- 13 make sure the cultural resources and sites aren't
- 14 damaged. I think the group came to agreement on how we
- 15 would make that happen.....
- MR. BROOKOVER: Folks, this is Tom.
- 17 I'm afraid I'm not hearing that conversation. I think
- 18 it's Mitch speaking and, Mitch, if you could move the
- 19 mic closer I'd appreciate it.
- 20 MR. ELLIS: Okay. My apologies. Yeah,
- 21 this is Mitch. I was going over I guess the conditions
- 22 on which we support a conservation easement stewardship
- 23 fund. And that would be very limited, it would be
- 24 limited to those things that are tied to Sections 5A
- 25 and 5B of the agreement. Our hope and initially, you

- 1 know, the first 10 years of the conservation easement I
- 2 think the parties have worked together generally well,
- 3 I think it's been a success, I think there's been a lot
- 4 of progress made. A lot of the things that Koniag
- 5 would like to see are improvements upon what our
- 6 successes have been to this point and we support that.
- 7 Ideally from the agency standpoint we would like to see
- 8 an agreement in perpetuity or even be title acquisition
- 9 of some areas of the conservation property. That's our
- 10 ultimate goal. Koniag has not expressed support for
- 11 that at this time, but, you know, our hope is to work
- 12 towards that goal.
- 13 I'm not sure if that answers your
- 14 question, but.....
- MR. HARTIG: Well, maybe just a follow-
- 16 up if I may. The concerns -- I guess what I read into
- 17 it is there's -- the concern is that the stewardship
- 18 fund includes funding of obligations that would go
- 19 beyond those specific sections that you mentioned of
- 20 the agreement -- current agreement. And so is that a
- 21 -- does that create a legal concern, a management
- 22 concern or both, you know....
- MR. ELLIS: The way the obligations are
- 24 characterized in the agreements now it gives our agency
- 25 more discretion, it says if funds are available we will

- 1 do these things. And I think the amendments you'll see
- 2 harden that, they put more obligation on the agencies.
- 3 So in a limited fashion we're willing to deal with
- 4 that. The exact wording of how that will be amended,
- 5 you're correct, it hasn't been worked out, but we're
- 6 close.
- 7 CHAIRMAN POURCHOT: Terri.
- 8 MS. MARCERON: Again being fairly new
- 9 to the Council I -- I'm going to ask if it's a lease or
- 10 a legal question in relationship to how the stewardship
- 11 fund is packaged here because I know there are other
- 12 EVOS acquired lands that other agencies manage
- 13 including my agency and I know that we have the
- 14 obligation without having ever been able to ask for
- 15 funds in order to administer the commitment made when
- 16 we acquired those. And I wanted to understand is this
- 17 a different situation and how -- is this precedent
- 18 setting in terms of establishing a fund like this which
- 19 then would open the door for others to potentially come
- 20 to the Council to meet the agency's obligation under an
- 21 easement. So I'm just trying to understand that
- 22 portion being new to the Council.
- MS. HSIEH: My understanding is Gina,
- 24 Jen and Sam and Ericka can speak to it or aspects of
- 25 it. And Joe. Well, with regard to Trustee Council is

- 1 that the Trustee Council has funded approximately 131
- 2 fee title with conservation easements and four
- 3 conservation easements were the real property is not
- 4 purchased, this being one of them. It is my
- 5 understanding the Trustee Council has not funded
- 6 maintenance or agency activities, whether under their
- 7 typical scope or not of any kind on these properties,
- 8 the Trustee Council has only produced -- authorized the
- 9 funds for one of state governments to actually purchase
- 10 the property and there's been no other financial
- 11 obligation, voluntary or not by the Trustee Council.
- 12 That's my understanding. And I don't know if -- Jen,
- 13 if you or one of the other legal team would like to
- 14 speak to that.
- MS. SCHORR: That's my understanding as
- 16 well. And I think your question about, you know,
- 17 potentially opening the door is a very good question
- 18 especially as agency budgets on the federal and state
- 19 side get reduced I think that that is going to become
- 20 more and more of an issue and a concern and I do fear
- 21 that this type of precedent would open the door.
- 22 Because -- and I'd be interested in hearing from you,
- 23 Mitch, how you would address the question of whether or
- 24 not these are normal agency activities. I just -- I
- 25 find Koniag's logic in regards to that question

- 1 somewhat circular and I don't -- I can't get myself
- 2 past that threshold question of how these activities
- 3 aren't -- don't fall under the umbrella of most of
- 4 them, at least normal agency activities.
- 5 MR. ELLIS: Well, the type of -- this
- 6 is Mitch talking again. The type of activities we're
- 7 talking about are normal agency activities insofar as
- 8 we conduct them on the Refuge property. We do law
- 9 enforcement, we do a permit system, we do all of those
- 10 things on the Refuge. Having the conservation property
- 11 expands that role and the first 10 years of the
- 12 agreement we have expended agency funds to do law
- 13 enforcement on the conservation properties and to work
- 14 on conservation measures and do surveys and wildlife
- 15 research and those sorts of things on the conservation
- 16 property as the state has as well because it is an
- 17 important area. Again I think we have had success the
- 18 first 10 years, I believe the issues that Koniag is
- 19 raising regarding additional protections for cultural
- 20 resources, a better permit managing system, those are
- 21 improvements to make the conservation of the property
- 22 more effective. But the Service is certainly willing
- 23 to go another 10 years at the current level of
- 24 commitment that we've made as far as expanding our
- 25 activities on the conservation property. But I can't

- 1 argue with Koniag's logic that having additional funds
- 2 available to manage it in a more effective way would
- 3 certain be a benefit. The permit system that the
- 4 Service manages now, for example, is people call and we
- 5 send them a paper copy. Koniag would like it to be an
- 6 online 24/7 available system, certainly those are
- 7 improvements. But again, you know, the added public
- 8 use, the agency activities on the properties are things
- 9 that we're doing that we may not be doing if we didn't
- 10 have a conservation easement.
- 11 Does that answer your question?
- MS. SCHORR: It helps, yes. Thank you.
- 13 And this is a more specific question, Mark, either for
- 14 you or maybe for you, Tom.
- Tom, can you hear me okay?
- MR. BROOKOVER: I can.
- 17 MS. SCHORR: Okay. I'm -- in looking
- 18 at the budget I notice that there's the agency --
- 19 agency projects and requests and that includes 150,000
- 20 for the smolt cabin and 150,000 for trail establishment
- 21 and maintenance for smolt cabin access. I was not
- 22 previously under the impression that the -- that Fish
- 23 and Game had planned to ask the Trustee Council for
- 24 funds to construct the smolt cabin. And so, you know,
- 25 I guess I'm just wondering whether that was the plan

- 1 and/or how the idea of having the Trustee Council fund
- 2 the smolt cabin came up during negotiations.
- 3 MR. FINK: Yeah. This is Mark Fink
- 4 again, Fish and Game. No, we did not plan to approach
- 5 the Trustee Council for funds to construct the cabin.
- 6 We have a new -- fairly new project going on in the
- 7 upper river, smolt project and the current conservation
- 8 easement does not allow new permanent structures to go.
- 9 MS. SCHORR: Right.
- 10 MR. FINK: So we through a permit from
- 11 Koniag were able to use one of their cabins last summer
- 12 and we conducted our work last summer temporarily
- 13 through using their cabin and we had some tent
- 14 platforms. We would like -- we would like the option
- 15 to have something permanent to work this project which
- 16 is going to be going for a long time. We approached
- 17 Koniag about would they be willing to change the
- 18 conservation easement to allow Fish and Game to go in
- 19 and construct the permanent structures upon agreement
- 20 by Fish and Wildlife Service and Koniag. And they
- 21 opted to -- they would prefer to construct and maintain
- 22 those structures and then allow us to use them and we
- 23 haven't been able to work that out. So.....
- 24 MS. SCHORR: Including leasing or
- 25 renting the cabin to Fish and Game?

- 1 MR. FINK: Correct.
- MS. SCHORR: Okay.
- 3 MR. FINK: And we had reached agreement
- 4 on that, we talked -- that was one possibility. We
- 5 also suggested that the cabin be a -- or if that cabin
- 6 is constructed by Koniag that it may be an
- 7 administrative cabin that can be used by Fish and Game
- 8 for our work, for Fish and Wildlife Service, for
- 9 Koniag, for other parties on the conservation easement
- 10 in which case we suggested probably there wouldn't need
- 11 to be a fee or a charge at least for the use of the
- 12 cabin.
- MS. SCHORR: Okay.
- MR. FINK: So the numbers you see here,
- 15 we didn't offer them any information on it.
- MS. SCHORR: Okay. That's helpful.
- 17 Thank you. And again, I guess, that would be a concern
- 18 for me that that's \$300,000 that Fish and Game hadn't
- 19 planned on having the Trustee Council fund and that
- 20 would fall again within the normal agency activity
- 21 scope. And so instead it's been added to the budget
- 22 and then with I assume Koniag maintaining ownership if
- 23 they build a cabin as of course it's on their land that
- 24 would be proper, but then potentially becomes a revenue
- 25 source for Koniag during times that it is not being

- 1 used by Fish and Game or when it is no longer being
- 2 used.
- 3 MS. HSIEH: I think they removed the
- 4 rental provision.
- 5 MR. ANDERSON: Yeah, that's correct.
- 6 That we initially proposed \$750,000 a year and through
- 7 discussion with U.S. Fish and Wildlife Service they
- 8 felt that that was too large of a number and so we
- 9 elected to reduce the request and that's the items that
- 10 we dropped from our request. We really were just
- 11 trying to demonstrate where that \$750,000 number came
- 12 from. But now that it's been dropped it could
- 13 potentially still be accomplished with some of the
- 14 contingency dollars that would be left over from the
- 15 projects that we're obligated ahead of time, but it
- 16 really depended upon if there were excess funds
- 17 available at the end of each year.
- 18 MS. SCHORR: Okay. Thank you. And
- 19 then on a related note the -- it's my understanding
- 20 that it's -- there's a longstanding bar on using
- 21 Trustee Council funds for education. And so that, you
- 22 know, also raises some questions regarding some of the
- 23 budget line items that deal directly with public, you
- 24 know, educational outreach and that type of thing.
- 25 CHAIRMAN POURCHOT: Further comments or

- 1 questions?
- MR. BROOKOVER: This is Tom. I've got
- 3 I think two questions. And this may be for either Will
- 4 Anderson, Jr. or Mitch. When I read the draft language
- 5 in the proposal it strikes me that there's an intent
- 6 anyway to -- I don't know what the term is, I guess it
- 7 may be delegate authorities, that the Fish and Wildlife
- 8 Service holds in terms of at least enforcement if not
- 9 other authorities to Koniag. And I'm wondering if that
- 10 is the case and if there are other authorities what
- 11 they might be. And if that is the case I guess I'm
- 12 wondering from a Fish and Wildlife Service standpoint
- 13 what the ramifications of that are because that seems
- 14 likely problematic just from my agency experience.
- MR. ANDERSON: Well, if I could maybe
- 16 address that first. What we had contemplated in that
- 17 provision was to contract through the Kodiak Area
- 18 Native Association to use their Village Public Safety
- 19 Officer Program that would -- wouldn't necessarily have
- 20 an enforcement capability, but would be more of a
- 21 inspection, a monitoring function. And that, you know,
- 22 typically if someone were to be found in violation of
- 23 the permitting requirements that you could address that
- 24 out in the field and there'd be a certain amount of
- 25 cooperation with the trespasser so to speak. But in

- 1 those cases where, you know, we couldn't resolve that
- 2 issue in the field with a VPSO officer, then that would
- 3 be when we would contact U.S. Fish and Wildlife Service
- 4 for them to be able to conduct their enforcement, you
- 5 know, rights and obligations and that wouldn't
- 6 necessarily fall on Koniag or its contractor to fulfill
- 7 that role.
- 8 MR. ELLIS: Right. This is Mitch. I
- 9 -- we wouldn't be delegating any of our law enforcement
- 10 responsibilities or commissioning any officers, it
- 11 would be a community policing, a monitoring program
- 12 just as Will described.
- MR. BROOKOVER: Okay.
- 14 CHAIRMAN POURCHOT: Further questions,
- 15 Tom?
- MR. BROOKOVER: Yeah, I'm thinking
- 17 about that. I'll let that sit for a minute. The other
- 18 one was related to Terri's question originally in terms
- 19 of the stewardship fund and the use for management
- 20 related activities on a conservation easement like
- 21 this. I think I heard Elise say they are four other
- 22 conservation easements that have been funded by EVOS
- 23 funds without a fee purchase and I'm wondering what the
- 24 status of those is with respect to funding management
- 25 activities. Are -- do -- how are the management

- 1 activities performed and by whom on those easements. I
- 2 don't know if Samantha or somebody's available to
- 3 answer that question, but I guess I'm wondering what
- 4 the status quo is for other easements of this type to
- 5 the extent that they are of this type. And I guess the
- 6 other question I had along the same lines are any of
- 7 those easements term easements or are they all in
- 8 perpetuity?
- 9 MS. HSIEH: Tom, this is Elise. I
- 10 don't know, hopefully you can hear me. And I don't
- 11 think you heard -- what I was saying is the Trustee
- 12 Council has funded approximately 131 conservation
- 13 easements and obtained fee title to underlying lands
- 14 and has funded four conservation easement without
- 15 obtaining fee title, Koniag being one of them. So you
- 16 have about 135 conservation easements and for the most
- 17 part lands which the Trustee Council has funded during
- 18 the last plus 20 years. It is my understanding that
- 19 the Trustee Council has never funded any management of
- 20 the lands, it has only authorized funding for the
- 21 purchase, the acquisition of the lands or in the case
- 22 of those four conservation easements. So this would be
- 23 a step in a different direction for the Council and one
- 24 for which I would encourage the Council to have an
- 25 Executive Session with its legal advisors to see if

- 1 this sort of action is appropriate for these joint
- 2 trust funds.
- 3 CHAIRMAN POURCHOT: I think one of
- 4 Tom's specific questions though is on those four who
- 5 holds responsibility for doing -- for managing those
- 6 easements?
- 7 MS. HSIEH: And I don't -- Sam or Jen,
- 8 do you know?
- 9 MS. SCHORR: The agency that holds the
- 10 conservation easement. So, you know, if, for example,
- 11 the State holds fee then a federal agency will hold the
- 12 conservation easement and then and/or a federal agency
- 13 or the federal government holds the fee and a state
- 14 agency hold the conservation easement. So those
- 15 management activities are absorbed by the agency that
- 16 holds the conservation easement.
- 17 And, Tom, to answer your question about
- 18 term conservation easements, to my knowledge this is
- 19 the only conservation easement that was set up in this
- 20 manner. All the others were in perpetuity. Samantha,
- 21 is that.....
- 22 MS. CARROLL: I'd have to double check
- 23 that, but I believe that there's one that has termed.
- MS. SCHORR: Okay. Okay. So.....
- MS. CARROLL: But I'd have to double

- 1 check.
- MS. SCHORR:but regardless it's
- 3 the vast majority if not all of the conservation
- 4 easements that have been purchased have been in
- 5 perpetuity?
- 6 MS. HSIEH: Well, and or fee. And also
- 7 with the fee ones, the 131 approximately fee plus
- 8 conservation easement funded by the Trustee Council,
- 9 again the same pattern follows where one government
- 10 takes title, the other government takes conservation
- 11 easement and absorbs the management costs. And those
- 12 arrangements are made before funds are authorized. So
- 13 the governments are part of that decision, the Trustee
- 14 Council doesn't force lands upon the government.
- MR. BROOKOVER: So just a follow-up if
- 16 I could, Mr. Chair.
- 17 CHAIRMAN POURCHOT: Yeah, go ahead,
- 18 Tom.
- MR. BROOKOVER: Elise, on those
- 20 remaining three then when -- if one government takes
- 21 management and the other takes fee, is it typically DNR
- 22 on our side that would be the -- one of those entities
- 23 and who would it be -- does it vary among federal
- 24 agencies on the federal side?
- MS. CARROLL: On the state side, yes.

- 1 This is Samantha. The title resides with the Division
- 2 of Lands within our Department of Natural Resources.
- MS. HSIEH: You're talking about the
- 4 three where the governments have not obtained title?
- 5 MR. BROOKOVER: Yes.
- 6 MS. CARROLL: Those I believe are
- 7 federal conservation easements.
- 8 MR. BROOKOVER: Okay. And in that case
- 9 a federal agency would have management authority and
- 10 responsibility?
- MS. CARROLL: Yes.
- MS. SCHORR: And we can check on that
- 13 for you, Tom, we just -- we don't recall offhand which
- 14 agencies hold those conservation easements.
- MR. BROOKOVER: Okay.
- MS. CARROLL: I think that primarily
- 17 they're Fish and Wildlife Service.
- MS. SCHORR: Okay.
- 19 CHAIRMAN POURCHOT: I don't know if you
- 20 heard that or not, Samantha was saying primarily Fish
- 21 and Wildlife Service on the part of the fed she thinks.
- MR. BROOKOVER: I did. I mean, and
- 23 just to be certain that is the case here, correct?
- MS. SCHORR: Yes.
- MR. ELLIS: Yes, it is.

- 1 MR. BROOKOVER: Okay. Thanks.
- 2 CHAIRMAN POURCHOT: Mr. Anderson, did
- 3 you have another comment?
- 4 MR. ANDERSON: Well, sure. I think
- 5 though that there is a very important distinction with
- 6 this particular easement agreement in that I don't
- 7 believe others have a special investment account the
- 8 way that this is structured. I don't know that there
- 9 is a funding pool available to deal with the very
- 10 specific and special requirements called for under the
- 11 easement. So I do think there's a -- that's a very
- 12 important distinction in this agreement.
- MS. SCHORR: Although also to follow-up
- 14 on that distinction when the conservation easement was
- 15 set up that funding was set aside to be dedicated
- 16 towards the purchase of the property and towards the
- 17 annual payments if Koniag decided to sell the property
- 18 at anytime. And it wasn't set up 10 years ago with the
- 19 intention to pay for management costs.
- 20 CHAIRMAN POURCHOT: Further questions
- 21 or comments?
- MR. HAGEN: I guess I just maybe hear
- 23 from Mr. Anderson on the -- what problem is it trying
- 24 to fix with this stewardship fund. There's a -- I see
- 25 some reference in your letter which received yesterday

- 1 on employees actively seeing of witnesses -- witnessing
- 2 a violation of the standards of offending parties.
- 3 What's that refer to?
- 4 MR. ANDERSON: Well, what's of primary
- 5 importance to us is, you know, the fact that it's a
- 6 very important cultural resource for us and that
- 7 unpermitted use could result in very significant
- 8 damage. You know, we -- we've conducted our own
- 9 surveys, we believe that there are hundreds of
- 10 homesites there and a non-permitted user, you know, may
- 11 not be aware of, you know, restrictions on where they
- 12 can camp. And we need to have, you know, real time
- 13 knowledge of who is supposed to be on the river, you
- 14 know, what to expect as far as use of camping
- 15 facilities and that would make monitoring and
- 16 enforcement much more efficient. But the real issue
- 17 for us is that, you know, as a -- our ancestors, you
- 18 know, would set up their homesites on those areas of
- 19 the river that are most convenient for fishing and a
- 20 modern day fisherman has the same motivations and so
- 21 they're likely to set up their camp in the exact same
- 22 locations and they might build a latrine or some other,
- 23 you know, means of damaging the land that could, you
- 24 know, forever prevent us from really learning from that
- 25 archeological resource.

- 1 So I don't know if that addresses your
- 2 question.
- 3 MR. HAGEN: Yeah, I just did that -- I
- 4 guess that example of the type of things you're
- 5 concerned about. Has that happened to any extent
- 6 already or is that.....
- 7 MR. ANDERSON: It is happening.
- 8 MR. HAGEN:in the last 10 years?
- 9 MR. ANDERSON: Yes. And, you know, it
- 10 was of a -- of a huge concern even prior to this
- 11 easement agreement that, you know, the land was being
- 12 very heavily utilized and, you know, really very, you
- 13 know, readily observed damage to the banks and to the
- 14 areas along the river.
- MR. HAGEN: So this was a problem even
- 16 before this agreement came in?
- 17 MR. ANDERSON: It was a motivation for
- 18 us to enter into this agreement because we felt like,
- 19 you know, it's a very expensive proposition to have
- 20 adequate enforcement on those lands. And I think it's
- 21 evidenced by the fact that, you know, there are limits
- 22 to even what the Fish and Wildlife Service can do for
- 23 getting resources out there on the river. And it was
- 24 really one of the most important provisions and
- 25 justifications for us to enter into the agreement. And

- 1 the fact that it hasn't been performed to the extent
- 2 that we believed it would be is what's brought us to
- 3 this point of trying to find a solution so that we can
- 4 keep the agreement in place. And I think we're all
- 5 motivated in the same way, we want to see those lands,
- 6 you know, protected and preserved.
- 7 CHAIRMAN POURCHOT: Further comments
- 8 and questions?
- 9 MR. HARTIG: Mr. Chair.
- 10 CHAIRMAN POURCHOT: Yeah.
- 11 MR. HARTIG: It's Larry Hartig again.
- 12 Question, I'm not sure who can answer this, but I know
- 13 that Koniag has to make their decision on whether to
- 14 continue the conservation easement. What's the
- 15 deadline for making that? I know that we extend -- we
- 16 modified the agreement, but I can't remember what the
- 17 drop dead date is now.
- 18 MR. ANDERSON: Well, the extension that
- 19 you provided said that 30 days after this meeting we
- 20 can elect to pull out of the easement agreement. It's
- 21 a special election that wasn't otherwise called for
- 22 under that agreement. I don't believe there's anything
- 23 that would prevent a further extension and I do believe
- 24 that, you know, we are very close, you know, to ironing
- 25 out all of the specifics and we'd be able to, I think,

- 1 present a much more, you know, complete proposal if we
- 2 were able to, you know, work on it a bit longer. So
- 3 that is one alternative, you know, it doesn't have to
- 4 be, you know, all or nothing here at this meeting. So
- 5 that's one alternative you can consider, I suppose.
- 6 MR. HARTIG: I guess the question or
- 7 the key question may be -- I see an inevitable
- 8 Executive Session coming here, is that why even
- 9 entertain that, I mean, to me there's a couple of
- 10 options. One is give the parties more time to
- 11 negotiate towards the agreement if we think that that
- 12 would resolve things and get everybody where they want
- 13 to be and comfortable for the next 10 years at least.
- 14 Then the other thing would be is say that at this point
- 15 it's not legal for us to spend money on funding a
- 16 stewardship fund arrangement like this and that would
- 17 be the purpose of the Executive Session, to have a
- 18 discussion like that, but what are the barriers here if
- 19 any. The other would be to say that, this again kind
- 20 of goes back to my opening comment, is really something
- 21 between Fish and Wildlife Service and Koniag and, you
- 22 know, we're here to fund a conservation easement, we're
- 23 not here to address all of the legitimate management
- 24 concerns that you each have. And we're not really the
- 25 venue for that and we can't help you with that, we can

- 1 only say if there's any desire to go forward with the
- 2 conservation easement then, you know, we're happy to
- 3 continue funding that. But I don't -- I don't know
- 4 which one -- which is -- that path forward may not be
- 5 something acceptable to Koniag and I appreciate that
- 6 given your experience, but it just really sounds to me
- 7 like Fish and Wildlife Service is very committed
- 8 towards the same objectives that Koniag has with is
- 9 great. But I think we -- maybe we need an Executive
- 10 Session.
- 11 CHAIRMAN POURCHOT: I had follow-up
- 12 questions maybe for Mr. Darnel or someone on line. The
- 13 -- to continue negotiations, I mean, with the consent
- 14 of both parties under the agreement, you can always
- 15 negotiate terms, correct, I mean, you don't need
- 16 another 30 days or another 45 days to.....
- MR. ANDERSON: No, that's not.....
- 18 CHAIRMAN POURCHOT:continue to
- 19 negotiate?
- MR. ANDERSON: No, that's not the case.
- 21 If we allow the 30 days to lapse we are obligated to
- 22 remain under the terms of the agreement for the
- 23 remainder of the 10 years. And my board has already
- 24 made a decision that we're not willing to do that under
- 25 the current terms of the agreement, that there are too

- 1 many issues that are left unanswered and there's no
- 2 obligation on the part of the other parties to reach
- 3 some sort of an accommodation. And so basically we're
- 4 stuck. So I already have authority to give notice of
- 5 our withdrawal should we not be able to reach agreement
- 6 and that is our intended action.
- 7 CHAIRMAN POURCHOT: I don't know, Joe,
- 8 did you have a -- any opinion on that?
- 9 MR. DARNELL: No. Joe Darnell here. I
- 10 think legally obviously you could come back in, but
- 11 obviously if this works out that there's policy reason
- 12 that they may not wish to be put into a position
- 13 because they would then be at a negotiating
- 14 disadvantage. So I understand. Legally you could
- 15 amend the agreement if everybody came to agreement on
- 16 it, but that's.....
- 17 MR. BROOKOVER: I'm sorry, I'm not
- 18 hearing very well here.
- 19 MR. DARNELL: Sorry. All I was saying
- 20 was that legally you could change it at a later date,
- 21 but obviously the negotiating position of folks is
- 22 different because if you don't come to agreement then
- 23 they are stuck with it. So.....
- MS. SCHORR: The other alternative that
- 25 Joe mentioned, Tom, is that you could extend that term

- 1 that was provided to Koniag that provides for the
- 2 unilateral termination option that was not originally
- 3 provided for in the original documents. That would
- 4 involve amending the Master Agreement and Conservation
- 5 Easement again, but it is an alternative.
- 6 MR. BROOKOVER: Okay. Thanks.
- 7 MR. HARTIG: But again only worth
- 8 pursuing if it's a legal option -- legally valid option
- 9 which I think this.....
- MS. SCHORR: Agreed.
- MR. HARTIG: And it seems like we need
- 12 to have that Executive Session.
- 13 CHAIRMAN POURCHOT: Any further
- 14 comments before entertaining another motion?
- 15 MR. HAGEN: I guess just a -- maybe a
- 16 question on the cost in this last on a document we
- 17 received on this -- how the expenses of the stewardship
- 18 fund would be put forth. Now this -- this came from
- 19 yourself.....
- MR. ANDERSON: That's correct.
- 21 MR. HAGEN:Mr. Anderson, right?
- MR. ANDERSON: Yes, that's correct.
- MR. HAGEN: So would there be -- I
- 24 guess if Fish and Wildlife put together their costs, if
- 25 they were -- if it was their own property would it

- 1 still be \$500,000 a year, I mean, is that -- this would
- 2 be a -- I'm just wondering what's the minimum necessary
- 3 to -- you know, how -- you know, just it seems quite
- 4 expensive, I guess.
- 5 MR. ANDERSON: Well, we've been
- 6 conducting operations out there for quite some time and
- 7 I feel like we have a very good understanding of, you
- 8 know, what the logistical challenges are to get
- 9 equipment out there and to get people out there. That
- 10 -- it's very remote, it takes -- you know, a lot of
- 11 time you can't get out there due to weather and there
- 12 are costs associated with that. That's part of why we
- 13 have some contingencies there. And it's really based
- 14 upon our firsthand experience of working on those lands
- 15 that we based our budget.
- MR. HAGEN: Okay.
- 17 CHAIRMAN POURCHOT: Further comments or
- 18 questions?
- 19 MR. BROOKOVER: This is Tom, I did have
- 20 -- I did have one more for Mr. Anderson.
- 21 CHAIRMAN POURCHOT: Yeah.
- MR. BROOKOVER: Regarding the
- 23 stewardship fund, my sense was reading through the
- 24 proposal that that fund would be managed by the
- 25 management team identified in the proposal for uses at

- 1 their -- at their decision. And it -- and as I
- 2 understood that that was a -- that stewardship fund
- 3 would be held by the Fish and Wildlife Service, but it
- 4 would be subject to decisions made by the management
- 5 group. My understanding was that that -- they -- a
- 6 consensus process, in other words when that group
- 7 didn't -- wasn't able to come to consensus -- I guess I
- 8 have a question in terms of what would happen in that
- 9 scenario. But then in reading the response that Koniag
- 10 provided yesterday the budget items were lined out and
- 11 most of them seemed fairly certain. And I'm just
- 12 wondering if you can help me reconcile the two -- the
- 13 two scenarios there. Am I misreading something?
- MR. ANDERSON: Well, I -- I'm not sure,
- 15 but I answer that by saying that you're correct in that
- 16 that management group would have the decision making
- 17 power upon which project would be funded and that there
- 18 would be -- it would need to be in keeping with, you
- 19 know, the purposes of the Council. So it wouldn't be a
- 20 situation where we could spend the money on anything,
- 21 there would need to be some policy drafted to make sure
- 22 that it does not go beyond the legal limitations and
- 23 bounds that our -- the funds are subject to. But then
- 24 on the other side of that if we were unable to reach
- 25 consensus and there were funds remaining that rather

- 1 than having those dollars simply accumulate that there
- 2 be some default use of those funds. And what we're
- 3 proposing is that it would go to the Alutiiq Museum and
- 4 Archeological Repository to study, care for and, you
- 5 know, preserve those artifacts that would be discovered
- 6 through the other funding -- funded projects. That,
- 7 you know, they do the field work, they -- they find
- 8 various objects and that those remaining dollars would
- 9 be -- help cover the cost of preserving those objects.
- 10 MR. BROOKOVER: Okay. Now with respect
- 11 to the line items that were provided in yesterday's
- 12 response though, do they present a conflict with the
- 13 use of the money as it's described under the proposal?
- 14 MR. ANDERSON: I don't believe so. I'm
- 15 not sure, maybe I'm not following your concern that it
- 16 would be a conflict that, you know, the -- you know,
- 17 the primary use of the funds would be dictated by that
- 18 group and if they weren't able to reach unanimous
- 19 decision on how to -- that those funds are in keeping
- 20 with the requirements of the Council, that they would
- 21 go to that default project.
- 22 MR. ELLIS: This is Mitch. I'd like to
- 23 make a comment regarding the carryover funds. So I
- 24 think our vision of a stewardship fund if it were to
- 25 happen would be that there would be a very conservative

- 1 approach to approving projects. And we don't object to
- 2 consensus based decision making process by the
- 3 management group because what that would result in if
- 4 we failed to reach agreement there would be carryover
- 5 funds. But our position is that carryover funds would
- 6 either be returned directly to the special account or
- 7 the carryover could accumulate and at the end of the 10
- 8 years it would all go back, whatever carryover was left
- 9 would go back to the special account.
- 10 MR. BROOKOVER: Okay. Thanks. This is
- 11 Tom. I'm just looking at the response to the Executive
- 12 Director's list of questions that was sent late last
- 13 week and number 2 is provide a detailed budget for use
- 14 of the \$725,000 per year stewardship fund and there's
- 15 an attachment A provided which states that the proposed
- 16 budget has been revised to be 500,00 and then it lines
- 17 out items for that \$500,000. And those seem like --
- 18 some of those at least seem like fairly certain items.
- 19 And I'm -- you know, I'm trying to wrestle with the
- 20 concept described in the proposal which is stewardship
- 21 fund with stated objectives versus attachment A which
- 22 has specific line items.
- MS. HSIEH: I think the Trustee Council
- 24 could benefit from Executive Session because this
- 25 approach with consensus and left over funds is

- 1 antithetical to my understanding of the legal bounds of
- 2 the joint trust funds. And I would -- I think the
- 3 Trustee Council might benefit from clarification
- 4 regarding your supervisory Trustee duties which -- of
- 5 the funds. For example, the Trustee Council does not
- 6 set up endowments, the Trustee Council has structured
- 7 its long-term monitoring scientific programs based on
- 8 legal counsel and the restrictions of the funds to have
- 9 annual discrete budgets which the Trustee Council
- 10 approves the way the funds are spent. So I think it
- 11 would help to have at least where those lines are
- 12 before getting too deep into, you know, can there be a
- 13 stewardship fund and if so, you know, what are the
- 14 legal boundaries.
- 15 CHAIRMAN POURCHOT: Tom, are -- did you
- 16 get your questions fully answered or to your
- 17 satisfaction?
- MR. BROOKOVER: Well, I'm still
- 19 uncertain.
- 20 CHAIRMAN POURCHOT: I could tell. Mr.
- 21 Anderson.
- MR. ANDERSON: And if I could just
- 23 follow-up. That having the unspent funds go back into
- 24 the special investment account isn't acceptable to
- 25 Koniag because all it would take would be one member of

- 1 the group to perpetually veto any proposal and then
- 2 nothing came from this. And so I think we need to have
- 3 specific amount available and that it all be spent each
- 4 year is Koniag's concept of how those funds would be
- 5 used. So it isn't so much an accumulating fund, but
- 6 it's -- you know, so it's a slight distinction to
- 7 quote, an endowment, that they would be required to be
- 8 spent each year.
- 9 MS. HSIEH: I guess my point was is the
- 10 Trustee Council in the past it's been my understanding
- 11 was not legally able to actually transfer a bulk of
- 12 funds to a third party and that third party then decide
- 13 how those funds are spent. So it's not that this
- 14 couldn't be restructured, but I think it would help the
- 15 Trustee Council to know what their limitations are with
- 16 regard to structuring an account, if the account itself
- 17 is legally viable.
- 18 CHAIRMAN POURCHOT: Further comments or
- 19 questions before, I guess, entertaining a motion? Mr.
- 20 Hartig.
- 21 MR. HARTIG: Yeah. Thank you. I'll
- 22 make a motion that again following the applicable
- 23 federal and state requirements that we go into
- 24 Executive Session to confer with our legal counsel
- 25 regarding the stewardship agreement that's been

- 1 proposed here. And I don't know the time frame on
- 2 that, but I'll just go ahead and make the motion before
- 3 we talk about the time frame.
- 4 CHAIRMAN POURCHOT: All right. Is
- 5 there a second to that?
- MS. MARCERON: Second.
- 7 CHAIRMAN POURCHOT: It's been moved and
- 8 seconded to move into Executive Session for purposes of
- 9 conferring with our attorneys on legal issues raised in
- 10 the proposed Koniag stewardship fund proposal. Is
- 11 there discussion?
- 12 (No comments)
- 13 CHAIRMAN POURCHOT: Is there any
- 14 objection to moving into Executive Session?
- 15 (No comments)
- 16 CHAIRMAN POURCHOT: Tom on line?
- 17 MR. BROOKOVER: No objection.
- 18 CHAIRMAN POURCHOT: Without objection
- 19 then the motion passes unanimously to go into Executive
- 20 Session. And I guess once again we'll give Tom and our
- 21 attorneys a little bit of -- a few minutes here to get
- 22 back on line again and everybody else would be signed
- 23 off.
- 24 (Off record)
- 25 (Executive Session)

- 1 (On record)
- 2 CHAIRMAN POURCHOT: Tom, are you back
- 3 on?
- 4 MR. BROOKOVER: I am.
- 5 CHAIRMAN POURCHOT: Very good. So why
- 6 don't we come back into regular session. We are still
- 7 on the Koniag easement issue. And why don't we put --
- 8 further comments or questions by the Council?
- 9 (No comments)
- 10 CHAIRMAN POURCHOT: Tom, anything
- 11 further?
- MR. BROOKOVER: Mr. Chair, no. I don't
- 13 think I have any further questions at this point.
- 14 CHAIRMAN POURCHOT: Okay. What's the
- 15 desire of the Council on this issue?
- MR. HARTIG: I'll go ahead and start.
- 17 CHAIRMAN POURCHOT: Larry.
- 18 MR. HARTIG: Well, we -- obviously we
- 19 were conferring with legal counsel during Executive
- 20 Session on the issue about legal concerns around the
- 21 proposed stewardship agreement. And I guess I got
- 22 pretty convinced that there's not a path forward
- 23 through the legal concerns. It's not just a precedent
- 24 setting for the Trustees, but it would be funding
- 25 activities that would really be hard to segregate from

- 1 normal management activities such as enforcement and
- 2 inspections and those kind of things. But also my own
- 3 view of it is is that I don't think the parties are
- 4 done negotiating or yeah, I think there's still room
- 5 maybe for discussions. I heard Fish and Wildlife say
- 6 that they're not opposed to something like a
- 7 stewardship agreement with the right elements to it and
- 8 I understand Koniag's legitimate concerns about
- 9 protection of their lands. I think that's very
- 10 important to them and understandably so. So what I
- 11 propose is -- would be -- well, I'll make a motion, I
- 12 guess that's the way I should do it. I make a motion
- 13 that under the same terms of which we extended the date
- 14 for Koniag to make a decision whether to continue the
- 15 easement that we made at our last meeting, that same
- 16 motion, that I make the same motion, but change it so
- 17 that they would have 30 days after the date of our next
- 18 regularly scheduled meeting which is currently October
- 19 to exercise their option not to continue the easement.
- 20 That -- I don't know if that would be beneficial to the
- 21 parties or not, it may be they decide now it's -- this
- 22 is -- it's this or nothing, but I would -- the purpose
- 23 of the motion would be to give you time to see if
- 24 there's a way of accomplishing either a stewardship
- 25 agreement or something like it that's acceptable to

- 1 Koniag and Fish and Wildlife Service in a means other
- 2 than through something that would have to be funded
- 3 through EVOS which I don't think we legally can do. I
- 4 think we're just up against a wall on that. But I
- 5 think that would give people time and time to consult
- 6 the boards and everything else you need to do, but I
- 7 just don't see at path forward.
- 8 But that -- that's my motion.
- 9 CHAIRMAN POURCHOT: Thank you. Is
- 10 there a second to that motion?
- MS. MARCERON: Second.
- 12 CHAIRMAN POURCHOT: It's been moved and
- 13 seconded. If I could ask a question just for
- 14 clarification. Could you -- as part of that motion
- 15 could you kind of hit the time sequencing of if the
- 16 parties were interested in negotiating and if they were
- 17 to come up with something.....
- MR. HARTIG: Oh, okay.
- 19 CHAIRMAN POURCHOT:what would be
- 20 the submission date, what would be a rough Council date
- 21 and what would be the so called drop dead date.
- MR. HARTIG: Okay. Well, I'll amend my
- 23 motion, restate or whatever to put a little more detail
- 24 in that, I think it -- that would be helpful. I think
- 25 that just so that we can have time to look at it and

- 1 get any legal question, I think we'd need it by
- 2 September 1.
- MS. HSIEH: That's when we get it
- 4 typically, get our material.
- 5 MR. HARTIG: Yeah. So that would be
- 6 with -- we could get another proposal. So the idea
- 7 would be -- the motion would be is that we extend the
- 8 date for Koniag to make its decision whether to
- 9 continue the easement from -- right now I think it's 30
- 10 days after this meeting so it would now be 30 days
- 11 after our next regularly scheduled meeting which is
- 12 currently October. And that if the parties have a
- 13 proposed agreement they want the Trustees to consider
- 14 at our October meeting to have that to us -- the
- 15 Executive Director no later than the 1st of September.
- 16 MS. HSIEH: And I believe last fall the
- 17 motion or the resolution had 30 days after the
- 18 regularly scheduled meeting and then after that notice
- 19 that were to terminate usually is a 30 day period in
- 20 which to do that.
- 21 MR. HARTIG: Right. It would be under
- 22 the same terms as the last.....
- MS. HSIEH: Correct.
- MR. HARTIG:we extended, all the
- 25 same terms except for 30 days being from the October

- 1 meeting, the next regularly scheduled meeting versus
- 2 this meeting. Everything else would be the same.
- 3 CHAIRMAN POURCHOT: And is that okay
- 4 with the second.....
- 5 MS. MARCERON: Yes.
- 6 CHAIRMAN POURCHOT:too, that
- 7 clarification? It's been moved and seconded to provide
- 8 an opportunity for the additional discussions or
- 9 negotiations between the parties. Perhaps culminating
- 10 with the next Council meeting, but bringing forward any
- 11 proposal by September 1 prior to that Council meeting.
- 12 Is there any questions or discussions or clarifications
- 13 Council members want on that motion?
- (No comments)
- 15 CHAIRMAN POURCHOT: Tom?
- MR. BROOKOVER: Well, I -- just
- 17 thinking about this, I go back to our last meeting when
- 18 we had the discussion about extending the first time
- 19 and asked Koniag with the parties to sit down and see
- 20 what they could come up with. And I just want to $\ensuremath{\text{--}}$ I
- 21 think there's a lot to be said for the effort Koniag
- 22 put forth and I just want to thank Mr. Anderson and
- 23 Charlie Powers for their efforts. I -- I mean, I look
- 24 at this and what they -- and what happened and think
- 25 they did buckle down and put a lot of hard work into

- 1 this. I don't know, you know, what the druthers are on
- 2 the part of Koniag here to go forward here, but I like
- 3 this approach, I think it's a good one. And, you know,
- 4 we'll certainly lend our -- all our support regardless
- 5 of what happens in terms of renegotiating this or
- 6 moving forward, you know, with -- without an easement
- 7 or what have you. We'll be there at the table and
- 8 continue to do so. So I think though that this is a
- 9 good approach at least from where I'm sitting.
- 10 CHAIRMAN POURCHOT: Thank you, Tom.
- 11 Other comments or questions, clarifications on the part
- 12 of the Council members?
- 13 MS. SCHORR: I guess I would just like
- 14 to clarify that as we're returning to the approach that
- 15 we discussed at the last meeting and the idea of
- 16 potentially extending the period in which Koniag can
- 17 unilaterally terminate the agreement, so we're also
- 18 returning because as discussed by Larry due to the
- 19 legal constraints around the stewardship fund issue
- 20 that we are returning to the approach of no dollar
- 21 amount being attached to amendments as was discussed at
- 22 the September meeting.
- 23 CHAIRMAN POURCHOT: That's also my
- 24 understanding from Larry's.....
- MS. SCHORR: Okay.

- 1 CHAIRMAN POURCHOT:description
- 2 also.
- 3 MR. HARTIG: Right. That's correct. I
- 4 -- we just go back to where we were at that time and
- 5 try again.
- 6 MS. SCHORR: Okay. Thank you.
- 7 MR. HARTIG: But I think we're -- I'm
- 8 where I was back then and I think there's a lot of good
- 9 information, good work that came out of that. I agree
- 10 with Tom and that may help frame up the discussions
- 11 between Fish and Wildlife Service and Fish and Game and
- 12 Koniag, but a lot of these are management issues that
- 13 we really can't solve with Trustee funds. That's what
- 14 it comes down to.
- MS. SCHORR: Exactly.
- MR. HARTIG: And but I don't want to
- 17 cut them short when they seem so close, you know, on
- 18 something that's so important to everybody.
- 19 MS. SCHORR: And I absolutely would
- 20 like to, you know, add my thanks to Tom's and to yours
- 21 that -- to Koniag and to Fish and Wildlife Service and
- 22 Fish and Game for what I know is a lot of hard work.
- 23 CHAIRMAN POURCHOT: Other comments or
- 24 questions?
- 25 (No comments)

- 1 CHAIRMAN POURCHOT: If not there is a
- 2 motion that's before us to -- I'm not going to repeat
- 3 all of it, but granting an extension of the existing
- 4 easement agreement until possibly something to consider
- 5 for our next fall meeting with any potential agreement
- 6 being submitted to the Council by September 1.
- 7 Further comments or questions?
- 8 (No comments)
- 9 CHAIRMAN POURCHOT: If not, is there
- 10 objection to the motion?
- (No comments)
- 12 CHAIRMAN POURCHOT: Tom?
- MR. BROOKOVER: No objection.
- 14 CHAIRMAN POURCHOT: Hearing no
- 15 objections the motion passes unanimously.
- 16 Cordova Center. Let's see.....
- MS. HSIEH: We have -- I believe we
- 18 have the Mayor of Cordova on the line, Jim Kallander
- 19 and also Cathy Sherman is also on the phone. And we
- 20 have Linda Kilbourne from our office who has worked
- 21 with Cathy and also DCED which manages the construction
- 22 project.
- 23 And, Cathy and/or Jim, if you could
- 24 just very, very briefly, if you'd like to give a brief
- 25 introduction regarding your request. We did receive

- 1 some materials yesterday or maybe I should just see if
- 2 I can summarize this and see if it's correct.
- I think the total reimbursements by
- 4 EVOS as of the end of December are about \$3.5 million.
- 5 I think there's what, \$3.4 million left, just under
- 6 \$200,000 of interest payments which also can be
- 7 allotted towards the Cordova construction. Phase two
- 8 of the construction is projected by Cordova to be about
- 9 \$12 and a half million. The Trustee Council is legally
- 10 -- its parameters are it can fund up to one-third of
- 11 the construction, that was in the original resolution,
- 12 that kind of blueprint, footprint for funding. The
- 13 City of Cordova has submitted additional information,
- 14 its vision for additional support would be 1.3 for
- 15 EVOS, 5.5 for the State of Alaska, 1.2 for foundations
- 16 and they have lots of grant applications in. The
- 17 history of this is that the Trustee Council did fund --
- 18 vote in May of 2008 to fund up to one-third of the
- 19 construction, at that time about \$7 million. And there
- 20 was almost a year and a half, two year delay before
- 21 those funds were -- went through -- all the processes
- 22 were approved and released. During that time I believe
- 23 the budget did rise. We reviewed the billings and I
- 24 think the construction project has gone apace and gone
- 25 well, but the cost from 2008 where there was a

- 1 recession to now that the costs have increased.
- 2 So I think that it in a nutshell.
- 3 Cathy or Jim, is there anything you could add to that,
- 4 any sort of factoid or correction?
- 5 MS. SHERMAN: I was just going to say I
- 6 think everything you just stated, Elise, was correct
- 7 and Jim wanted to just take a -- just do a brief intro
- 8 as well.
- 9 MS. HSIEH: Okay. We have a trustee
- 10 who has to leave at 2:00 o'clock for a flight. So and
- 11 I know that they like to address these issues.
- 12 MR. KALLANDER: This is Jim and I'd
- 13 forego the -- forego my statement in the effort of
- 14 trying to move the meeting along. And, Elise, you
- 15 summarized everything that I was going to say very
- 16 well.
- MS. HSIEH: Thank you.
- 18 CHAIRMAN POURCHOT: Questions or
- 19 comments by the Council?
- 20 (No comments)
- 21 CHAIRMAN POURCHOT: Tom on line, any
- 22 comments or questions?
- MR. BROOKOVER: Not at this time.
- MS. HSIEH: Can I ask a question?
- 25 CHAIRMAN POURCHOT: Sure.

- 1 MS. HSIEH: This is Elise. And I'm not
- 2 sure what the construction schedule for the phase two,
- 3 was it -- was it envisioned to be completed over the
- 4 next six months, Cathy or Jim?
- 5 MS. SHERMAN: No, actually phase two is
- 6 estimated right now to begin next month in March and it
- 7 will be completed by April of 2014.
- 8 MS. HSIEH: Okay. So you have some
- 9 time. I guess I, as a straw dog recommendation, there
- 10 are still some EVOS funds, 3.5, almost \$3.7 million
- 11 which have not been expended, but which are reimbursed
- 12 at a one-third rate which does pressurize somewhat the
- 13 City of Cordova to go out and get the other two-thirds,
- 14 but that is a legal restriction and so, I guess,
- 15 although, you know, I think that rising above the one-
- 16 third reimbursement and we may end up with issues where
- 17 the Council ends up funding more than the one-third, we
- 18 end up with that legal issue. So there was that
- 19 request. The other request was for an additional \$1.3
- 20 million. I think if we could get more concrete
- 21 information submitted by September 1st the Trustee
- 22 Council is expected to have a meeting in late October,
- 23 early November, where they could address funding
- 24 shortfalls at that time. And the third request was
- 25 reimbursing items back to 2002. I think we can -- I

- 1 think that would be very difficult for a couple
- 2 reasons. One is that there's also a legal restriction
- 3 on only funding one-third of construction costs. And
- 4 so I think if they really felt they had construction
- 5 costs before that they could submit that at September
- 6 1st too to be evaluated in more detail.
- 7 So I guess that's my recommendations at
- 8 this time.
- 9 CHAIRMAN POURCHOT: Larry.
- 10 MR. HARTIG: Yeah, thank you. This is
- 11 Larry Hartig. I still think that we should be trying
- 12 to get this project finished.....
- MS. HSIEH: Yes.
- MR. HARTIG:and that -- but I
- 15 also think that we went through a lot to get it
- 16 approved last time and to revisit the one-third
- 17 contribution I think would be very difficult, I don't
- 18 know that we'd be successful there. I doubt it. So it
- 19 would be easier, I think, for us to look at if -- if
- 20 the costs have gone up and particularly as related to
- 21 some delays that are beyond the control and the project
- 22 was managed well and I assume it was and I have no
- 23 reason to believe not. So I'd be amenable to
- 24 considering that, but if it doesn't have to be at this
- 25 meeting then it does make sense to do it -- take it up

- 1 in September where we can all the figures in front of
- 2 us and have a good schedule in front of us. And then
- 3 just have a proposal to on a go forward basis for
- 4 funding our third, if you will, of what the newest
- 5 projected costs are going to be.
- 6 MR. KALLANDER: Mr. Chair, if I may.
- 7 This is Jim Kallander.
- 8 CHAIRMAN POURCHOT: Yeah, Mr. Mayor.
- 9 MR. KALLANDER: I listened to Elise's
- 10 comments there and I quess we provided documentation
- 11 demonstrating the increased cost and we don't expect
- 12 the Council to go beyond one-third of the total cost of
- 13 the facility. But postponing, you know, additional
- 14 funding for us is going to affect other fund raising
- 15 for us. We're currently working very hard in Juneau
- 16 and in Washington to try to facilitate this and
- 17 everyone knows that you folks are our strongest partner
- 18 in this project and frankly people have said
- 19 specifically that they want to know immediately what
- 20 you folks are going to do in terms of helping us
- 21 complete this project. And the cost overruns from this
- 22 project have come from like Elise said, you know, the
- 23 starting estimates were during a recession in the
- 24 country and because the project has taken so long to
- 25 come to fruition and because of some geotechnical

- 1 issues with the foundation that ran costs up a little
- 2 bit, the total project cost has gone up considerably.
- 3 Right now we're at \$7.5 million short of completion
- 4 with a total project cost of \$25.5 million. And we
- 5 could really use a little help. And I understand the
- 6 legal issues on the one-third and we've had to develop
- 7 a line of credit with our own permanent fund to bridge
- 8 funding issues with reimbursement through DCED and
- 9 we've been able to manage that okay, but I'd ask you to
- 10 reconsider increasing funding at this time.
- 11 CHAIRMAN POURCHOT: Other comments,
- 12 questions?
- MR. HARTIG: Mr. Chair.
- 14 CHAIRMAN POURCHOT: Larry.
- 15 MR. HARTIG: If I understand right
- 16 would the request be to provide the additional funding,
- 17 I guess about 1.2 million would be our third?
- 18 MS. HSIEH: 1.3 is an estimate. The
- 19 Council could conditionally authorize up to a
- 20 particular amount in the interim period before their
- 21 next meeting. However conditioned upon, for example,
- 22 verification by the Department of Law, who else verify
- 23 -- and Department of Justice regarding other funding
- 24 sources. So the issue is not are we -- you know, are
- 25 you looking at one-third, the costs have gone up, is

- 1 this one-third, most likely, but do you have the other
- 2 two-thirds is really what we -- is how it was
- 3 orchestrated last time. So potentially the Trustee
- 4 Council could authorize up to a certain amount of money
- 5 conditioned on USDOJ and Department of Law reviewing
- 6 other funding that's obtained and continuing a one-
- 7 third reimbursement rate as well parallel to that. And
- 8 not rising above the current allocation unless the fund
- 9 -- the other two-thirds funds is shown. So that way
- 10 they have the conditioned funding in hand to go try and
- 11 drum up additional funding.
- MR. HARTIG: Which we did last time?
- MS. HSIEH: Yes, we did this last time
- 14 too where we had a delay or we asked them for more
- 15 information to show us the -- confirm the other sources
- 16 of funding.
- MR. HARTIG: And the one.....
- 18 MR. KALLANDER: Mr. Chair, if I may.
- 19 CHAIRMAN POURCHOT: Mr. -- yeah, Mr.
- 20 Mayor.
- 21 MR. KALLANDER: Mr. Chair, on August
- 22 3rd of 2011 the City Council passed a resolution and
- 23 I'm not going to read the whole thing, but does hereby
- 24 pledge a firm monetary commitment sufficient to
- 25 complete construction of the Cordova Center Project

- 1 equal to any funding deficit. We have permanent fund
- 2 monies, but obviously we want to preserve those for a
- 3 safety net for the community and we need -- we need
- 4 your contribution at this point as a catalyst to
- 5 complete our funding plan which includes the
- 6 legislature and, of course, other foundations such as
- 7 Rasmussen and so forth. It's critical and I hope
- 8 you'll consider that.
- 9 MS. SCHORR: This is Jen Schorr, Mr.
- 10 Mayor. Would approval of conditional funding as Elise
- 11 suggested upon showing that you have firm commitments
- 12 for the other two-thirds be sufficient to help you
- 13 raise that funding? Because it is a demonstrated
- 14 commitment from the Trustee Council.
- MS. HSIEH: And I'm not sure the
- 16 Trustee Council has another choice.
- 17 MR. KALLANDER: Well, obviously that's
- 18 a much better situation than we're currently in and
- 19 that would be viewed with some optimism with
- 20 legislators that we're working with. I wouldn't say no
- 21 to that, but I don't know, I think we're already into
- 22 this, the community and EVOS and other funders and I'm
- 23 just concerned about Department of Justice and
- 24 Department of Law getting down to the end and then
- 25 having other issues with our situation, but we'll

- 1 gladly accept that offer and do the best we can.
- 2 MS. SCHORR: Because it was an original
- 3 requirement of the resolution that.....
- 4 MS. HSIEH: Correct.
- 5 MS. SCHORR:Cordova require or
- 6 demonstrate that it had firm commitments for the
- 7 remainder of the funding. So I think that continue --
- 8 this would continue that requirement.
- 9 MR. KALLANDER: Mr. Chair.
- 10 CHAIRMAN POURCHOT: Mr. Mayor.
- 11 MR. KALLANDER: You know, it seems to
- 12 me like in the original grant agreement under paragraph
- 13 4 that cites the one-third reimbursement that the
- 14 Trustee Council has adequate protection for 100 percent
- 15 funding. If -- I'm not a lawyer, but to me that
- 16 protects you to make sure that you're never -- you
- 17 know, you're never into this for more than one-third of
- 18 the total cost.
- MR. HARTIG: Well, we don't have that
- 20 in front of us. So but.....
- MS. HSIEH: Well, I do have the
- 22 resolution, but I have reviewed with our legal counsel,
- 23 I proposed, you know, or floated by them the idea of
- 24 raising the reimbursement rate, but that does get the
- 25 Trustee Council into a position where monies have gone

- 1 out which are above -- potentially above what has been
- 2 legally determined. So.....
- 3 MR. HARTIG: I mean, to refresh
- 4 people's memories here, the -- and my own, if I could
- 5 confirm it, I guess, is that we've looked at how the
- 6 space would be used in the building and the idea was a
- 7 third of it would be used for EVOS related purposes.
- 8 MS. HSIEH: That's correct.
- 9 MR. HARTIG: And we had to convince the
- 10 attorneys involved that those uses fit in with
- 11 allowable uses of the money and that's how we got --
- 12 got it through.
- MS. HSIEH: Yes.
- MR. HARTIG: And so if we're shifting
- 15 the level of funding without going back through that
- 16 same process, confirming that whatever the new
- 17 percentage.....
- MS. HSIEH: Well, I think what he's
- 19 suggesting is not shifting the level of funding.....
- MR. HARTIG: No, I understand.
- MS. HSIEH:shifting the level of
- 22 reimbursement.
- 23 MR. HARTIG: That's right. I'm saying
- 24 if we shifted -- if we just still did a third of the
- 25 project even with the higher cost and still a third of

- 1 the space is being used as proposed before I think
- 2 we're okay. But if we're now funding 40 percent of the
- 3 project then we're -- and still have a third of the
- 4 space for EVOS work then we've got a problem.
- 5 MS. HSIEH: Right. I think what he's
- 6 suggesting is the total would end up being one-
- 7 third....
- 8 MR. HARTIG: Right.
- 9 MS. HSIEH:but that the cash flow
- 10 would be increased to our quarterly reimbursements to
- 11 higher than one-third. Currently we only.....
- MR. HARTIG: Well, that -- that was
- 13 going to be my question. I heard two contingencies
- 14 being discussed. One is that -- the first contingency,
- 15 I guess, would be that it wouldn't exceed 1.3 million.
- 16 The second contingency would be that our total
- 17 contribution to the cost of construction wouldn't
- 18 exceed overall one-third. And lastly that the funds
- 19 wouldn't -- the new money, the 1.3, wouldn't be
- 20 expended until confirmation by our attorneys that he
- 21 had firm commitments for the other two-thirds of the
- 22 funding from other sources. And.....
- MR. KALLANDER: Mr. Chair, if I may.
- MR. HARTIG:second.....
- 25 CHAIRMAN POURCHOT: Just a minute.

- 1 MR. HARTIG:that we would use --
- 2 we would, I guess, follow the language in the previous
- 3 resolution that would have to be drafted up. But I
- 4 didn't think that we were changing any of the terms of
- 5 reimbursement in terms of submitting -- how they would
- 6 submit bills and how those would be paid. It's still
- 7 -- I guess we'd pay one-third of whatever bill.
- 8 MS. HSIEH: You could actually just use
- 9 the same resolution and just change the amount.
- 10 MR. HARTIG: Right. That's what I was
- 11 conditioning.
- MS. HSIEH: They had suggested a higher
- 13 rate of periodic reimbursement and that's.....
- MR. HARTIG: Until the other money
- 15 comes in?
- MS. HSIEH: Yeah.
- 17 MR. HARTIG: Yeah, but I didn't hear
- 18 that yet.
- MS. HSIEH: Oh, that was suggested in
- 20 the letter or proposal.
- MR. HARTIG: Oh, yeah. I didn't hear
- 22 it today.
- MS. HSIEH: Not today, yes.
- MR. HARTIG: Okay. Sorry, Mr. Mayor,
- 25 didn't mean to cut you off there.

- 1 MR. KALLANDER: Mr. -- Commissioner
- 2 Hartig has it correct. What I'm proposing is we --
- 3 we've had to develop a work around on the one-third
- 4 reimbursement. And so that will not hold up fund
- 5 raising for us or continuing to finish this project.
- 6 However he is right that the total amount that we're
- 7 asking for would increase, however the one-third
- 8 reimbursement would assure that you -- that Council
- 9 never got into this building for more than one-third.
- 10 And also this -- the original agreement cites, for
- 11 example, in the museum 61 percent goes to the EVOS
- 12 related projects and in the museum is the same 61
- 13 percent. So there's no suggestion from us that the
- 14 square footage dedicated to EVOS related projects and
- 15 displays and so forth is changing. So the original
- 16 concept of one-third reimbursement is -- we're not
- 17 proposing to change that, only that the total amount of
- 18 the building has gone up and we're asking for
- 19 assistance on that.
- 20 CHAIRMAN POURCHOT: Other comments or
- 21 questions on the part of the Council?
- (No comments)
- 23 CHAIRMAN POURCHOT: What's the desire
- 24 on the part of the Council?
- MR. HARTIG: I guess one last question

- 1 for Elise. Is 1.3 million the right figure?
- MS. HSIEH: I think that the Council
- 3 should allow that there may be some adjustments that
- 4 they -- we should request any other information at the
- 5 September 1st time as well. I feel like the folks in
- 6 Cordova have -- due to some circumstances haven't had
- 7 enough time to come up with firm numbers and also -- so
- 8 I think giving them some elasticity and acknowledging
- 9 that this might not be the firm number which sometimes
- 10 we might require I think would be appropriate in this
- 11 circumstance.
- Sorry, is that the answer.....
- 13 CHAIRMAN POURCHOT: No. No.
- MR. HARTIG: Glad to see what
- 15 contingencies we need. No, I.....
- MS. HSIEH: Is it a firm number?
- 17 MR. HARTIG: No. No, I -- no, it's not
- 18 a firm number I just think they need some number to go
- 19 around and shop around.
- 20 MS. HSIEH: Yes, that's right. I think
- 21 that would be the number you would use.
- MR. HARTIG: Okay.
- MS. HSIEH: I thought you were asking
- 24 will they ever come back and ask for.....
- 25 MR. HARTIG: No, I just think it would

- 1 be a contingent number.
- 2 MS. HSIEH: Yes.
- 3 MR. HARTIG: So let me try to make a
- 4 motion, I'll probably need some help here. Okay. I
- 5 move that the Trustees authorize funding of 1.3 million
- 6 additional funds for the Cordova Center on the terms of
- 7 our original authorization of funding with the
- 8 following contingencies. One, that our overall funding
- 9 of the project doesn't exceed more than one-third of
- 10 the construction costs. These may not be the exact
- 11 terms, that we would go back to the original resolution
- 12 to get the right terms. That there would not have been
- 13 a change in the allocation of space such that there
- 14 would be less space to be used for EVOS purposes than
- 15 in the original funding resolution. And that none of
- 16 the additional funds being authorized in this motion be
- 17 disbursed unless and until Department of Law and
- 18 Department of Justice have confirmed to their
- 19 satisfaction that the City of Cordova has firm
- 20 commitments for the remaining two-thirds of funding
- 21 needed to complete the project beyond our one-third.
- I think those are all the
- 23 contingencies.
- 24 CHAIRMAN POURCHOT: Is there a second
- 25 to that?

- 1 MS. SCHORR: I'd like to suggest adding
- 2 a condition and that is that the city agree not to
- 3 approach the Trustee Council for additional funding.
- 4 And I think....
- 5 MR. HARTIG: Well....
- 6 MS. SCHORR:that it is really
- 7 important to finish this project and -- but I do worry
- 8 about....
- 9 MR. HARTIG:my only concern about
- 10 that is a -- an amendment would be the 1.3 might not be
- 11 exact, it may be 1.4 or 1.5 or 1.2, I'm not sure. So
- 12 there may be room to adjust, but we're not expecting
- 13 any more requests.
- MS. SCHORR: Okay. I'm comfortable
- 15 with that. I understand there might be some adjustment
- 16 in the number, but I would like to avoid a -- you know,
- 17 a future additional.....
- 18 MR. HARTIG: Yeah. And we couldn't tie
- 19 another board anyway.
- 20 MR. HAGEN: Because this is a sensitive
- 21 topic what was the conditions under which Department of
- 22 Justice and Department of Law, what were their -- what
- 23 were they going to be looking at to their satisfaction,
- 24 just.....
- 25 MS. HSIEH: I think Larry's calling

- 1 into play the same terms as Resolution 11-02 which --
- 2 for the original \$7,008,392 of funding which discussed
- 3 the square footage, the portion of the facility to be
- 4 used and I thought also had.....
- 5 MR. HARTIG: We just did.....
- 6 MS. HSIEH: Oh, and Cordova will
- 7 provide for any expenditure from the EVOS Restoration
- 8 Fund and, of course, this would be any expenditure of
- 9 the 1.3 additional, documentation demonstrating to the
- 10 satisfaction of DOL and this says NOAA, I quess we had
- 11 people involved, now this would be USDOJ, that the city
- 12 has firm commitments for the funding of all anticipated
- 13 costs of construction.
- MR. HARTIG: We just didn't want our
- 15 money being spent until we knew there was going to be a
- 16 project.....
- MR. HAGEN: Right.
- MR. HARTIG:and the project's
- 19 going to be completed.
- 20 MR. HAGEN: I'm just wondering if the
- 21 whole package itself needs to be contingent upon
- 22 approval of Department of Law and Department of
- 23 Justice. Do you think we could at this point?
- MS. HSIEH: Just the additional funds.
- MR. HAGEN: Just the additional funds.

- 1 So....
- 2 MR. HARTIG: It's all under the same
- 3 original terms.
- 4 MR. HAGEN: Okay.
- 5 MR. HARTIG: It's.....
- 6 CHAIRMAN POURCHOT: I think those
- 7 fights were all fought out.
- 8 MR. HAGEN: Okay.
- 9 CHAIRMAN POURCHOT: Maybe not to
- 10 everyone's satisfaction.
- 11 MS. HSIEH: Jen, the original was
- 12 Department of Law and then a NOAA Trustee because
- 13 things were -- who would you suggest the current
- 14 sitting Council and Department of Justice to approve
- 15 the funding commitments?
- MS. SCHORR: I suggest asking
- 17 Department of Justice.
- MS. HSIEH: I agree.
- 19 MS. SCHORR: So that would be the one
- 20 change in the original resolution would be.....
- 21 MS. SCHORR: Potentially.
- MS. HSIEH: Potentially. Would be
- 23 Department of Law and Department of Justice.
- MR. HARTIG: Okay. But that's the way
- 25 we want it today, with Justice? Okay. That's fine

- 1 with me.
- MS. SCHORR: Gina, are you still on?
- 3 MS. BELT: Yes.
- 4 MS. SCHORR: Okay. Well, I'll call you
- 5 when we're done here, we can.....
- 6 CHAIRMAN POURCHOT: So are you
- 7 satisfied with the motion as clarified?
- 8 MS. SCHORR: Yes.
- 9 CHAIRMAN POURCHOT: And we still lack a
- 10 second for Larry's motion. Is there a second?
- MS. MARCERON: I second.
- 12 CHAIRMAN POURCHOT: Okay. Second.
- 13 Discussion on the motion? The motion would be, I'm not
- 14 going to repeat it all, but providing an amendment to
- 15 the original resolution increasing the total amount of
- 16 1.3 million, but at the same time conditioned to not
- 17 exceed the one-third total contribution, not to have
- 18 that money alter the allocation of space assigned to
- 19 the Trustee Council and having a total commitment of
- 20 the full amount approved by appropriate counsel.
- 21 MR. HARTIG: And the last condition was
- 22 that none of the additional funds, the 1.3, would be
- 23 spent until confirmation from Law and Justice that the
- 24 City of Cordova has firm commitments for the other two-
- 25 thirds needed to complete the project.

- 1 CHAIRMAN POURCHOT: Further comment or
- 2 discussion on the motion?
- 3 (No comments)
- 4 CHAIRMAN POURCHOT: Tom, any questions?
- 5 MR. BROOKOVER: Well, I -- no, I think
- 6 it's a good approach. I -- you know, we want to avoid
- 7 the worst case scenario of having an inadequate amount
- 8 of funding and jeopardizing the project as a whole and
- 9 I think this does that with some minimal additional
- 10 funding and I'm comfortable with the motion.
- 11 CHAIRMAN POURCHOT: Is there any
- 12 objection to the motion?
- 13 (No comments)
- 14 CHAIRMAN POURCHOT: Hearing none, the
- 15 motion passes unanimously.
- What else do we have left?
- MS. HSIEH: Oh, you have an Executive
- 18 Session.
- 19 MS. SCHORR: Well, I think given that
- 20 Terri's got to hit the road that we should defer that.
- 21 CHAIRMAN POURCHOT: Okay. Anything
- 22 else to come before the Council before adjournment?
- 23 (No comments)
- 24 CHAIRMAN POURCHOT: I -- if I might I'd
- 25 just say one thing and this is kind of to you, Elise,

- 1 and to others that may be coming back. It was -- as we
- 2 started out saying it was somewhat confusing and this
- 3 time we had last minute responses to questions that you
- 4 and your staff raised and questions that came up on
- 5 things that were on the agenda literally days and
- 6 sometimes hours before the meeting. And we could have
- 7 a cut off date, you know, sometime like we've talked
- 8 about for one of our items, a month or three weeks
- 9 before the meeting where, you know, if something's
- 10 going to be on the agenda it's all in, it's all done.
- 11 If people aren't ready it's going to slip to another
- 12 day because it -- we don't do justice to some of these
- 13 things when people are submitting comments. And I know
- 14 you've wrestled with this a lot.
- MS. HSIEH: General operating
- 16 procedures, I believe it's 15 days and then it's the
- 17 Executive Director discretion. When I came into this
- 18 position there was a fair amount of liberal allowance.
- 19 I am happy to facilitate whatever this sitting Council
- 20 would like to set as a guideline. That's my role.
- 21 So....
- MR. HARTIG: I think we just had really
- 23 complicated things on the agenda this time around.....
- MS. HSIEH: Yeah.
- MR. HARTIG:that made it.....

- 1 MS. HSIEH: This is unusual.
- 2 MR. HARTIG:made it tougher on
- 3 all of us, but....
- 4 MS. HSIEH: Yeah.
- 5 MR. HARTIG:I think we got
- 6 through it okay. But I agree with you, generally the
- 7 more time to prepare the better job we can do
- 8 especially with all the other duties we have.
- 9 MS. HSIEH: This agenda was unusual
- 10 for....
- MR. HARTIG: Yeah.
- 12 CHAIRMAN POURCHOT: I would say your 15
- 13 days would be minimum, but that seems like a good
- 14 working rule.
- MS. HSIEH: I will try and reassert
- 16 that.
- 17 CHAIRMAN POURCHOT: Anything else to
- 18 come before the Council?
- (No comments)
- 20 CHAIRMAN POURCHOT: If not, we stand
- 21 adjourned until the fall.
- 22 (Off record)
- 23 (END OF PROCEEDINGS)
