

Damage Assessment, Shoreline Cleanup, and Treatment: A Selected Bibliography on the *Exxon Valdez* Oil Spill

May 2002

The following bibliography is the result of a broad-based literature search of dissertations, journal articles, conference papers, and other sources. These references focus on **damage assessment, shoreline cleanup, shoreline treatment and operations, and shoreline monitoring** of the *Exxon Valdez* oil spill, and represent a variety of perspectives.

This list is not comprehensive or all-inclusive. Researchers are encouraged to consult the other topic bibliographies on this web page, and search indexes available at their local library and web-based search engines for more information.

To obtain copies of these documents, contact your local librarian for assistance in locating these items in the library or through interlibrary loan.
