

Exxon Valdez Oil Spill Trustee Council
General Restoration, Habitat Enhancement, Habitat Protection, and Facilities Projects
Quarterly Project Reporting Form

**Detailed instructions for each section below are given in Section II. Quarterly Project Reports in the Reporting Policy on the website, <https://evostc.state.ak.us/policies-procedures/reporting-procedures/>*

Project Number: 22220612

Project Title: Eyak Lake Weir Restoration

Principal Investigator(s): Kate Morse, CRWP; Steve Namitz, USFS; Jeff Stutzke, DOT

Reporting Period: May - July 2022

Submission Date: September 1, 2022

Project Website:

<https://copperriver.org/programs/fish-habitat-restoration/restoration/eyak-lake/>

and

<https://copperriver.org/eyak-lake-weir-project-page/> Password: weir

Please check all the boxes that apply to the current reporting period.

Project progress is on schedule.

1. Summary of Work Performed:

“Provide a summary of work performed during the reporting period, including any results available to date, findings and/or project successes, and how the original project objectives are being met. Any deviation from the original project objectives should be discussed. Any known problems or unusual developments or any other significant information shall also be described.”

The Copper River Watershed Project convened partners for two Eyak Lake Weir Cultural Resources meetings. Nine representatives from project partners USFWS, USFS, CRWP, and DOWL met and determined partner roles and responsibilities for the Section 106 work. USFS District Archeologist will take the lead on the Section 106 review. The USFS District Archeologist also met with the Eyak Corporation Lands Manager to walk the project site and begin identifying the Area of Potential Effect. Partners discussed options for additional culvert assessment on the north side of the bridge. A Section 106 checklist developed by USFS that included requirements, steps, and timelines was circulated to partners for review.

Quarterly Project Reporting Form

CRWP also worked with DOWL engineers to initiate next steps for the design process including developing scope and fees for all elements of this project. DOWL is currently working on the 15% design concept, with the first draft distributed to partners for review in September 2022.

The Eyak Lake Weir Project Page (for partners) was developed and updated during this quarter. All historic documentation, maps and data, planning files, comments, and meeting notes were shared with project partners through our website. All project materials can be viewed at: <https://copperriver.org/eyak-lake-weir-project-page/>. Password: weir. The public facing web page will continue to be updated as needed.

2. Abstract:

“Provide a shorter, more succinct summary of work performed during the reporting period and on the project overall, not to exceed 200 words. This summary will be used to provide regular updates on the project to the Trustees.”

CRWP convened project partners from five organizations to start the planning phase for the Eyak Lake Weir project cultural resources evaluation and survey work. Project partner, USFS, will help with on-the-ground elements of the project including leading the Section 106 Review. USFS and the Eyak Corporation partners preliminarily met on site to review site characteristics, Area of Potential Effect, cultural resource sites, and land ownership.

DOWL engineers developed scope and fees for all elements of the project. They are currently working on the 15% design concept for partner review in September 2022.

A scope of work to start the Section 106 was developed which includes requirements, steps, and timelines and is currently being reviewed by partners. This document along with all other historical documents, relevant maps and data, and planning files are stored on our website for partners.

3. Coordination and Collaboration:

“For this section, provide information on coordination and collaboration with any other groups, if applicable. These may include entities like the Alaska SeaLife Center, the Prince William Sound Science Center, Native corporations or Tribes, local or other government entities, etc. If applicable, please explain how your project relates to or complements other nearby projects. Please discuss if there are any aspects of the project that have supported EVOSTC trust or other

agency work or which have received EVOSTC trust or other agency feedback or direction, including the contact’s name(s) of the agency staff. If the project required or included collaboration with other agencies, organizations, or scientists, such arrangements should be fully explained, and the names of agency or organization representatives involved in the project should be provided. If the project conflicts with another project, please note this and explain why.”

CRWP has hosted two meetings with 5 partner organizations. Partners have been invited to join in the initial planning stages and development of scope of work for the Section 106 review. CRWP has had two consultations with the Eyak Corporation regarding cultural resource documentation, ownership, and Area of Potential Impact. The Eyak Corporation has consulted with the Native Village of Eyak on land ownership and cultural interests at the site. Eyak Lake Weir project partners in Table 1 are included in emails with project updates and invited to participate in project planning.

Table 1. Eyak Lake Weir partners and affiliations		
Jeff Stutzke/ADOT	Kate Morse/CRWP	Steve Namitz/USFS
Brennan Cain / Eyak Corporation	Kirsti Jurica/CRWP	Stormy Haught / USFS
Tiffany Beedle / Eyak Corporation	Lisa Docken/CRWP	Christy Mog/USFS
Brooke Mallory/ Native Village of Eyak	Ashley Taylor/CRWP	Tim Marshall/USFS

No comments or recommendations to address during this reporting period.

5. Budget:

Federal partners' expenditures will be submitted with the quarter 4 report.

Budget Category:	Proposed FY 22	Proposed FY 23	Proposed FY 24	Proposed FY 25	Proposed FY 26	5-YR TOTAL PROPOSED	ACTUAL CUMULATIVE
Personnel	\$138,200	\$175,850	\$91,653	\$87,653	\$0	\$493,356	\$1,072
Travel	\$5,186	\$2,902	\$2,031	\$28	\$0	\$10,147	
Contractual	\$526,000	\$4,074,761	\$250	\$0	\$0	\$4,601,011	\$17,253
Commodities	\$0	\$30,000	\$0	\$0	\$0	\$30,000	
Equipment	\$0	\$0	\$0	\$0	\$0	\$0	
Indirect Costs (30%)	\$36,017	\$44,942	\$10,419	\$10,344	\$0	\$101,722	\$2,176
SUBTOTAL	\$705,403	\$4,328,455	\$104,353	\$98,025	\$0	\$5,236,237	\$20,501
General Administration (9% of subtotal)	\$63,486	\$389,561	\$9,392	\$8,822	\$0	\$471,261	N/A
PROJECT TOTAL	\$768,889	\$4,718,016	\$113,745	\$106,848	\$0	\$5,707,498	
Other Resources (In-Kind Funds)	\$21,180	\$16,380	\$11,580	\$0	\$0	\$49,140	

INSTRUCTIONS: This summary page provides a five-year overview (FY 22-26) of proposed funding and actual cumulative spending which includes the **non-trustee agency** and **trustee agency worksheets**. **This Summary Page should automatically populate as the formulas reference the cells in the non-trustee agency and trustee agency worksheets. Please make sure the totals given are correct.** The column titled 'Actual Cumulative' will be updated each fiscal year and included in the annual report (include information on the total amount actually spent for all completed years of the project). On the Project Annual Report Form, if any line item exceeds a 10% deviation from the originally-proposed amount; provide detail regarding the reason for the deviation.

COMMENTS: CRWP's federal negotiated IDC can only be applied to the first \$25,000 of contracts, so the formulas for IDC on the "CRWP Non-Trustee Worksheet" have been adjusted to reflect one contract in FY22 and two contracts in FY23.
