- ADOL** **\$34,521**

Funds are for an RSA to cover salary costs for designated ADOL personnel (currently Jennifer Schorr) to provide legal oversight for habitat acquisitions, easements, timber rights, etc., and information to the public and Council regarding this program.

- ADFG** **\$60,000**

Funds are for contracted habitat support personnel (Lauri Adams) to provide services regarding habitat acquisitions, easements, timber rights, etc., and information to the public and Council regarding this program.

- ADNR** **\$90,000**

Funds are for designated habitat personnel (currently Samantha Carroll) to oversee large and small parcel habitat acquisitions, easements, timber rights, etc., and provide information to the public and Council regarding this program (i.e. Habitat Acquisition Catalog update). The Habitat Protection Program has moved from a passively-managed program to an active program with the Great Land Trust pursuing restoration projects on behalf of the Council. The Great Land Trust is currently negotiating several large land acquisitions that involve determinations regarding the State's long-term management of restoration lands. This increase in activities places a greater demand on DNR staff time and resources.

The purchase of any interest in land requires additional Trustee Council review and approval. See proposal dated 08.29.2014

• **MAP UPDATE** **\$35,000**

As the primary trust agency for the EVOSTC Habitat Protection Program, the Alaska Department of Natural Resources (DNR) is responsible for holding title for restoration lands and limited interests in lands, as funded by the Council. The DNR Land Administration Records (LAS) and the EVOSTC Habitat Protection and Acquisition Catalog require periodic review and updates of land status. The Catalog was last updated in 2006 and DNR, at the direction of the Council office, is currently working on 2015 update. This task includes intensive title research and identifying LAS data that is incorrect with regard to EVOSTC-funded properties. Correcting this data will allow DNR reference maps to display accurate land status for such properties. Accurate record keeping and maintenance is vital to the overall management of EVOSTC lands and for the dissemination of information, including in responding to inquiries by the public, media and governmental agencies.

COMMODITIES - \$8,000

• **ADNR**

Interpretive Information **\$8,000**

These funds are to purchase materials to produce documents, including those for meetings, public outreach, and general information regarding habitat acquisition. This task includes researching what projects took place in the interim, researching each project to determine the interests acquired and the associated costs, writing project narratives and creating associated GIS maps, including resolution of land status discrepancies.

Funding provides two .5 FTE librarians (½ C. Holba salary, plus ½ other ARLIS and/or UAA staff) to meet the ongoing information and research needs of the Trustee Council staff, Public Advisory Committee, researchers, and the general public; manage the EVOS collection at ARLIS; and represent the Trustee Council on the ARLIS Management Team. With the reorganization in 2009-2011, the Restoration Program's need for ARLIS services was expected to diminish and ARLIS's funding was reduced. However, the Deepwater Horizon oil spill refocused attention on EVOS and increased the demand for EVOS-related information. FY15 funding increases the Council's ARLIS contribution to \$146,212 to ensure staffing levels are appropriate to meet the EVOS information needs of government agencies, NGOs, researchers, the media, and the public.

Phase 2 is underway to digitize the Project Files (1989-present) and Chief Scientist files (1992-2002) and will be completed by January 2015. Phase 3 will digitize files for the Habitat Protection Program (1993-present), Public Advisory Committee (1992-present), Scientific and Technical Advisory Committee (2000-2006), and Community Involvement (1996-2000). Future Phases will include the EVOSTC Official Record (1991-present), and project data and other EVOS documents housed at ARLIS. See proposal dated 06/12/2014.
